We have constantly on hand a complete stock of Lumber, Lath,
Shingles and Building Material. Short Lumber of all grades, and
Low Grade of Dimension and boards at very low prices for Cash.

DOES GREAT DAMAGE

CROPS IN THE RED RIVER VAL-
LEY INJURED BY WIND
AND RAIN.

NEARLY READY TO HARVEST

Many Farmers Were Planning to Be-
gin Cutting This Week, But the
Storm Will Delay Matters Several
Days—Takes a Cyclonic Form at
Tappen, N. D., and Destroys a Num-
ber of Buildings.

Fargo, N. D., July 29.—Twenty thou-
sand acres of wheat in North Dakota
have been lodged by a rain and wind
storm. The entire eastern half of the
state has suffered. At Fargo nearly
two inches of rain fell, and the wind
reached a velocity of 40 miles an hour.
The rain was general as far north as
the Canadian line, and is thought to
have done more damage on the Min-
nesota side between Fargo and Crook-
ston. The lodged grain was badly
tangled by the wind's changing its
direction during the storm.

Reports from many sections of the
state conflict as to the amount of dam-
age done, and while some declare the
grain is hopelessly lodged on account
of the extra heavy straw and its prac-
tical maturity, more optimistic ac-
counts come from other places, where
it is thought a warm day or two will
straighten the grain up. On account
of the heavy rainfall it will be impos-
sible to get harvesting machines in the
fields for a number of days. Many
farmers had arranged to commence
harvesting early this week.

West of Fargo the storm took the
form of a tornado, and at Tappen, be-
tween Jamestown and Bismarck, the
church, a store and some barns were
blown down, and the Northern Pacific
depot unroofed. The tornado was sev-
eral miles wide, and entirely destroyed
all the crops in its path.

DULUTH'S BIG TIMBER DEAL.

A Million Dollars Paid for 170,000,000
Feet of Pine.

Duluth, July 29.—One of the largest
timber deals that has been made in
Northern Minnesota in many years
has just been completed. Cook and
Turkish of Duluth and their associates
transfer to the Brooks Timber com-
pany 170,000,000 feet of pine in St.
Louis and Lake counties for a con-
sideration of \$1,000,000 in round num-
bers. The Brooks Timber company is
the pine corporation of the Brooks-
Scanlon Lumber company and the
Scanlon-Gipson Lumber company.

The pine that has just been acquired
by the Brooks Timber company will
be saved at Cloquet in the new saw-
mill of the Brooks-Scanlon company,
which will be completed about Sept.
1. It will be necessary for the com-
pany to build a logging road 35 miles
long to deliver the pine to the mill.
The bulk of the timber is in St. Louis
county. The Brooks-Scanlon company
now owns about 450,000,000 feet of
pine tributary to this mill.

ONE MAY DIE.

Duluth Street Car Plunges Off a
Thirty-Foot Trestle.

Duluth, July 29.—A West Duluth
street car jumped the track and
plunged off a 30-foot trestle in the
west end of the city early in the morn-
ing, with the result that Louis Felix,
a laborer, one of the passengers, lies
at St. Mary's hospital unconscious,
with several wounds in his head, and
will probably die. Fortunately, there
were only three passengers in the car
besides the operators. All were more
or less bruised, but none seriously.
The car struck on its front end in a
swamp and stood on end. The motor-
man was in front at the brake, but be-
yond a few painful bruises, was un-
injured.

THOUGHT IT WAS A BURGLAR.

Farmer Living Near Hokah Minn.,
Kills a Large Bear.

La Crosse, Wis., July 29.—S. C.
Davis, a farmer residing in Minnesota,
a few miles from Hokah, was awak-
ened during the night by a scratching
at one of his windows. He reached
for his rifle, thinking that a burglar
fired through the window. There was
then all was quiet. He went outside
and there found that he had killed a
large bear. The appearance of a bear
in this vicinity is something unusual
and his presence cannot be accounted
for.

Three Yachts Capsize.

Chicago, July 29.—Three pleasure
yachts capsized off Chicago during a
heavy squall that preceded a rain-
storm, and though no lives were lost
the life saving crews and the police
were kept busy for some time rescuing
persons whose lives were in the great-
est peril. Fourteen persons were
taken from the water.

GERMAN TRADE REVIEWS.

Read Like Confessions of National Fi-
nancial Sins.

Berlin, July 29.—The weekly finan-
cial reviews read like confessions of
national financial sins. The Kreuz
Zeitung begins thus: No week passes
without revealing outrageous misman-
agement in some German stock com-
pany. A feeling of deep humiliation
therefore burdens the mercantile
classes, growing heavier and heavier.
The German name is tarnished before
foreign countries for years and the
whole nation must suffer in conse-
quence.

The Vossische Zeitung says:
Swindling operations like those of
Schmidt, Exner and Terlingen can be
performed only in an era of financial
credulity like the one we have just
had.

The National Zeitung says that "the
improvement of the market is prevent-
ed by a growing distrust which is con-
tinually looking for irregularities and
crimes in the management of com-
panies."

The cause of these expressions was
the publication of the condition of the
Leipsiger bank, showing a state of
things much more rotten than had
been expected from the Terlingen
revelations.

GERMANY'S NEW TARIFF.

Austria-Hungary and Russia May In-
stitute Reprisals.

London, July 29.—"The draft of the
new German tariff has caused great
excitement in interested circles
throughout Austria-Hungary," says the
Vienna correspondent of The Stand-
ard, "because the tariff threatens ex-
ports of barley, oats, cattle and tim-
ber. Some papers assert that a com-
mercial treaty between Austria-Hun-
gary and Germany will be impossible
if the proposed enormous increase of
duties is insisted upon. The excuse
is made for the extravagance of the
new duties that they will not become
law."

The Fremdenblatt, the organ of the
Austro-Hungarian foreign office, com-
menting upon the proposed German
tariff law, says: "If Germany wishes
a tariff war, Austria, Russia and the
United States will be ready to under-
take it."

London, July 30.—"The publication
of the German tariff bill has caused
considerable depression in government
circles here," says the St. Petersburg
correspondent of The Daily Mail. "M.
de Witte will certainly institute re-
prisals if the bill becomes a law."

MEDALS THROWN AWAY.

Astonishing Action of Members of the
Imperial Yeomanry.

London, July 29.—The drinking
places on the Strand Friday evening
were filled with members of the Im-
perial Yeomanry, who astonished their
friends by throwing their war medals
upon the floor and stamping upon
them. These medals were given by
King Edward to the yeomanry Fri-
day morning. In explanation of their
anger the yeomanry alleged the gov-
ernment was in arrears with their pay
and referred to the blunders of of-
ficials. One yeoman said:

"Our names are misspelled and our
rank and command are wrong in six
cases out of ten. We supposed the
medals would be worth something to
our friends and posterity, but mine is
not worth anything but to chuck
away."

The example of this man was fol-
lowed by others.

APPEALS TO HIS GOVERNMENT

William Radcliffe Asks for British
Protection.

Denver, July 29.—William Rad-
cliffe, owner of the lease on the Grand
Mesa lakes, in Delta county, has been
summoned to Washington for consul-
tation with the state department. This
gives an international aspect to the
recent shooting of two men by a de-
puty game warden, the burning of Ra-
dcliffe's hotel, and the threatened lyn-
ching of himself by a mob of Delta county
citizens.

Radcliffe claims to be a subject of
King Edward and has appealed to his
government to protect his life and
have him reimbursed for the loss of
his property.

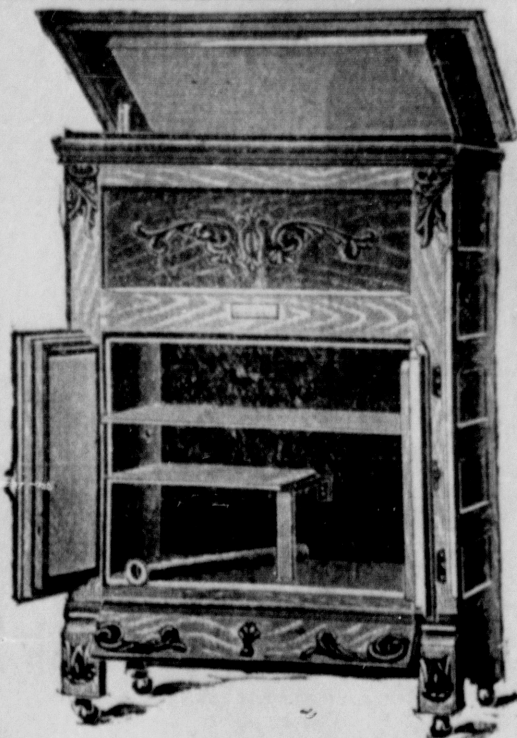

WANT CONGRESS TO ACT.

Cass Lake and Walker Anxious That
Reservation Be Opened.

Cass Lake, Minn., July 29.—The peo-
ple who are most interested in the
opening of the Chippewa Indian reser-
vation are commencing to move in
earnest toward the consummation of
their wishes and what they consider
their rights. A joint session of the
Commercial club of Cass Lake and the
Industrial association of Walker was
held at Strawbridge hall, Cass Lake,
at which time resolutions to this end
were adopted.

Eleven Men Injured.

Cincinnati, July 29.—Eleven men
were injured, perhaps fatally, in a gas
explosion in the new waterworks tun-
nel, now in course of construction in
this city. The explosion occurred 146
feet under ground.

TWO FAMILIES FIGHT

ENGAGE IN A DUEL WITH WIN-
CHESTER RIFLES NEAR MEM-
PHIS, TENN.

RESULT OF BOYISH QUARREL

Their Families Take Sides With Them
and Use Their Guns With Disas-
trous Effect—One of Them is Dead,
Two Badly Wounded and Another
is a Fugitive From Justice as a
Result.

Memphis, Tenn., July 29.—Edwin
Blalock, deal with a Winchester rifle
ball through his brain; M. F. Blalock,
leg broken by a bullet; Robert Wright,
Sr., leg broken by a bullet; Robert
Wright, Jr., a fugitive from justice.
Such is the net result of a desperate
duel with Winchester rifles which oc-
curred south of the city and near
Forest Hill cemetery. The tragedy
grew out of a dispute between Robert
Wright, Jr., and Edwin Blalock.

The fathers backed the boys up and
the two families lined up with rifles
on neutral ground. When within a
few yards of each other the first shot
was fired. Then sharp and quick the
resounding reports of firearms were
heard by the neighbors. At almost the
first shot from the side of the Wrights
young Blalock fell with a rifle ball
through his brain. His brother Fred
picked up his rifle, and took the brunt
of the battle on his shoulders. Finally
the elder Wright had to be taken off
the battle ground with a bullet in his
leg, and Blalock, injured in almost the
same way, was carried into his house.
The two young men took a few shots
at each other as they retreated, each
toward his own home.

Robert Wright, Jr., and Edwin Bla-
lock, the dead boys, had a slight quar-
rel. Wright, it was said, told it
around that he had given Blalock a
black eye. The two families, on ac-
count of this little difference between
the young fellows, became estranged
and the day's tragedy resulted.

An Old Time Telegrapher Dead.

Louisville, Ky., July 29.—W. H.
Johnson, who is said to have invented
the switchboard now used in an im-
proved form by the Western Union
Telegraph company, while he was em-
ployed in the manufacturing depart-
ment of that company in Cleveland
in 1855, died here of apoplexy. He
was a charter member of the Old Time
Telegrapher's association. Mr. John-
son was born in Williamstown, Mass.,
May 6, 1834.

Blinded by Carbolic Acid.

Muncie, Ind., July 29.—Peter Till-
bury, an iron worker, called at the
home of Kate Phinney and threw car-
bolic acid into the face of Mrs. Mary
Torrey, a guest, destroying her eyes
and burning her neck and arms fright-
fully. The man has pleaded with the
woman for years to marry him. She
has become a raving maniac.

Another Monte Carlo.

London, July 29.—"Buda Pest pa-
pers are filled," says a dispatch to The
Daily Express from the Hungarian
capital, "with accounts of a project
said to be promoted by American fi-
nanciers, for the creation of another
but more luxurious Monte Carlo on
Magarethen island, opposite the upper
end of the city on the Danube."

IS SOVEREIGN OF TURKEY.

Sultan's Officials' Reply to the Pro-
tests of Foreign Legations.

Constantinople, July 29.—Saturday
the sultan agreed to comply with the
demand made by the Russian govern-
ment for the release of the Servians
recently arrested in Albania, together
with the restoration of arms taken and
for the recall of Djemel Bey, the Mu-
sarif of Preshtina, the instigator of the
arrests. Notwithstanding this
prompt compliance the arrests were
continued and during the day Russia
repeated her demand in peremptory
terms.

France is pressing for a settlement
on account of the French owned
docks, the contract calling for their
purchase by Turkey. All the legations
are making preparations against inter-
ference by the porte with the deci-
sions of the sanitary council. The
porte officials receive these protests
with the utmost serenity, replying
that the sultan is the sovereign of
Turkey.

ITALIAN BANK SCANDAL.

Officials Falsify Books and Declare
Dividends Which Are Not Earned.

Rome, July 29.—If the leading finan-
cial newspapers of Italy can be trusted
this country is about to witness an
exposure of one of the worst scandals
of modern times.

The Economist declares that the
Bank of Italy for years has declared
a dividend which it has never earned,
and that the books of the bank had
been systematically falsified. The
Economist merely says it has been
mainly influenced by fear of low quo-
tations of the bank shares and by po-
litical considerations.

Other newspapers are calling for the
prosecution of the incriminated of-
ficials and it is difficult to see how
the government can resist the demands.

DROUTH BROKEN IN KANSAS.

Rainfall of From a Quarter of an Inch
to Two Inches Reported.

Atchison, Kan., July 29.—The drouth
in Northern Kansas, which has lasted
without interruption since April 15,
is at last broken. The Missouri Pa-
cific railway has received reports from
all its stations which extend 300
miles westward from the Missouri
river and northward into Nebraska
and all except two or three report a
downpour of from a fourth of an inch
to two inches. The rain was a steady
drizzling one and lasted in most places
for three or four hours. The parched
earth absorbed the moisture as fast
as it fell.

HISTORIAN PASSES AWAY.

Dorus Morton Fox, Who Started Tip-
pecanoe Movement, is Dead.

Des Moines, Ia., July 29.—Dorus
Morton Fox, author of the "History of
Political Parties, National Remin-
iscences and the Tippecanoe Move-
ment," is dead. He was largely in-
strumental in starting the Tippecanoe
movement in 1838, when Benjamin
Harrison was nominated for the pre-
sidency. Mr. Fox was born in 1817,
the state of New York.

General Wood Leaves Cuba.

Havana, July 29.—General Wood
was taken on board the steamer Moro-
ro Castle during the day. He expres-
sed himself as being quite well and
wanted to walk aboard the vessel, but
the doctors insisted upon his being
carried on board on a portable cot.
Deep sympathy with General Wood
was shown by Cubans of all classes
upon his departure.

DOES GREAT DAMAGE

CROPS IN THE RED RIVER VAL-
LEY INJURED BY WIND
AND RAIN.

NEARLY READY TO HARVEST

Many Farmers Were Planning to Be-
gin Cutting This Week, But the
Storm Will Delay Matters Several
Days—Takes a Cyclonic Form at
Tappen, N. D., and Destroys a Num-
ber of Buildings.

Fargo, N. D., July 29.—Twenty thou-
sand acres of wheat in North Dakota
have been lodged by a rain and wind
storm. The entire eastern half of the
state has suffered. At Fargo nearly
two inches of rain fell, and the wind
reached a velocity of 40 miles an hour.
The rain was general as far north as
the Canadian line, and is thought to
have done more damage on the Min-
nesota side between Fargo and Crook-
ston. The lodged grain was badly
tangled by the wind's changing its
direction during the storm.

Reports from many sections of the
state conflict as to the amount of dam-
age done, and while some declare the
grain is hopelessly lodged on account
of the extra heavy straw and its prac-
tical maturity, more optimistic ac-
counts come from other places, where
it is thought a warm day or two will
straighten the grain up. On account
of the heavy rainfall it will be impos-
sible to get harvesting machines in the
fields for a number of days. Many
farmers had arranged to commence
harvesting early this week.

West of Fargo the storm took the
form of a tornado, and at Tappen, be-
tween Jamestown and Bismarck, the
church, a store and some barns were
blown down, and the Northern Pacific
depot unroofed. The tornado was sev-
eral miles wide, and entirely destroyed
all the crops in its path.

DULUTH'S BIG TIMBER DEAL.

A Million Dollars Paid for 170,000,000
Feet of Pine.

Duluth, July 29.—One of the largest
timber deals that has been made in
Northern Minnesota in many years
has just been completed. Cook and
Turkish of Duluth, and their associates
transfer to the Brooks Timber com-
pany 170,000,000 feet of pine in St.
Louis and Lake counties for a con-
sideration of \$1,000,000 in round
numbers. The Brooks Timber company
is the pine corporation of the Brooks-
Scanlon Lumber company and the
Scanlon-Gipson Lumber company.

The pine that has just been acquired
by the Brooks Timber company will
be saved at Cloquet in the new saw-
mill of the Brooks-Scanlon company,
which will be completed about Sept.
1. It will be necessary for the com-
pany to build a logging road 35 miles
long to deliver the pine to the mill.
The bulk of the timber is in St. Louis
county. The Brooks-Scanlon company
now owns about 450,000,000 feet of
pine tributary to this mill.

ONE MAY DIE.

Duluth Street Car Plunges Off a
Thirty-Foot Tree.

street car jumped the track and
plunged off a 30-foot tree in the
west end of the city early in the morn-
ing, with the result that Louis Felix,
a laborer, one of the passengers, lies
at St. Mary's hospital unconscious,
with several wounds in his head, and
will probably die. Fortunately, there
were only three passengers in the car
besides the operators. All were more
or less bruised, but none seriously.
The car struck on its front end in a
swamp and stood on end. The motor-
man was in front at the brake, but be-
yond a few painful bruises, was un-
injured.

THOUGHT IT WAS A BURGLAR.

Farmer Living Near Hokah Minn.,
Kills a Large Bear.

La Crosse, Wis., July 29.—S. C.
Davis, a farmer residing in Minnesota,
a few miles from Hokah, was awak-
ened during the night by a scratching
at one of his windows. He reached
for his rifle, thinking that a burglar
fired through the window. There was
a shattering of glass, a howl of pain,
then all was quiet. He went outside
and there found that he had killed a
large bear. The appearance of a bear
in this vicinity is something unusual
and his presence cannot be accounted
for.

yachts capsized off Chicago during a
heavy squall that preceded a rain-
storm, and though no lives were lost
the life saving crews and the police
were kept busy for some time rescuing
persons whose lives were in the great-
est peril. Fourteen persons were
taken from the water.

GERMAN TRADE REVIEWS.

Read Like Confessions of National Fi-
nancial Sins.

Berlin, July 29.—The weekly finan-
cial reviews read like confessions of
national financial sins. The Kreuz
Zeitung begins thus: No week passes
without revealing outrageous misman-
agement in some German stock com-
pany. A feeling of deep humiliation
therefore burdens the mercantile
classes, growing heavier and heavier.
The German name is tarnished before
foreign countries for years and the
whole nation must suffer in conse-
quence.

The Vossische Zeitung says:
Swindling operations like those of
Schmidt, Exner and Terlinden can be
performed only in an era of financial
credulity like the one we have just
had.

The National Zeitung says that "the
improvement of the market is pre-
vented by a growing distrust which is
continually looking for irregularities
and crimes in the management of com-
panies."

The cause of these expressions was
the publication of the condition of the

things much more rotten than had
been expected from the Terlinden
revelations.

GERMANY'S NEW TARIFF.

Austria-Hungary and Russia May In-
stitute Reprisals.

London, July 29.—"The draft of the
new German tariff has caused great
excitement in interested circles
throughout Austria-Hungary," says the
Vienna correspondent of The Stand-
ard, "because the tariff threatens ex-
ports of barley, oats, cattle and tim-
ber. Some papers assert that a com-
mercial treaty between Austria-Hun-
gary and Germany will be impossible
if the proposed enormous increase of
duties is insisted upon. The excuse
is made for the extravagance of the
new duties that they will not become
law."

The Fremdenblatt, the organ of the
Austro-Hungarian foreign office, com-
menting upon the proposed German
tariff law, says: "If Germany wishes
a tariff war, Austria, Russia and the
United States will be ready to under-
take it."

London, July 30.—"The publication
of the German tariff bill has caused
considerable depression in government
circles here," says the St. Petersburg
correspondent of The Daily Mail. "M.
de Witte will certainly institute re-
prisals if the bill becomes a law."

MEDALS THROWN AWAY.

Astonishing Action of Members of the

London, July 29.—The drinking
places on the Strand Friday evening

perial Yeomanry, who astonished their
friends by throwing their war medals
upon the floor and stamping upon
them. These medals were given by
King Edward to the yeomanry Fri-
day morning. In explanation of their
anger the yeomanry alleged the gov-
ernment was in arrears with their pay
and referred to the blunders of of-
ficials. One yeoman said:

"Our names are misspelled and our
rank and command are wrong in six
cases out of ten. We supposed the
medals would be worth something to
our friends and posterity, but mine is
not worth anything but to chuck
away."

The example of this man was fol-
lowed by others.

APPEALS TO HIS GOVERNMENT

William Radcliffe Asks for British
Protection.

Denver, July 29.—William Rad-
cliffe, owner of the lease on the Grand
Mesa lakes, in Delta county, has been
summoned to Washington for consul-
tation with the state department. This
gives an international aspect to the
recent shooting of two men by a de-
puty game warden, the burning of Rad-
cliffe's hotel, and the threatened lyn-
ching of himself by a mob of Delta
county citizens.

Radcliffe claims to be a subject of
King Edward and has appealed to his
government to protect his life and
have him reimbursed for the loss of
his property.

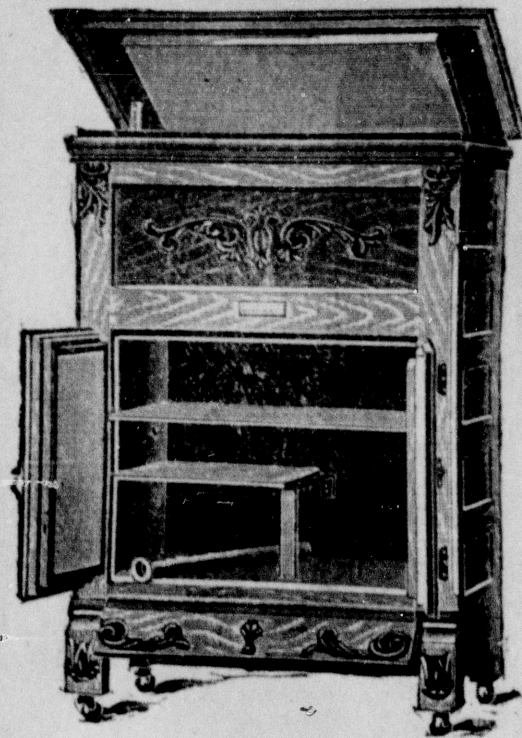

WANT CONGRESS TO ACT.

Cass Lake and Walker Anxious That
Reservation Be Opened.

Cass Lake, Minn., July 29.—The peo-
ple who are most interested in the
opening of the Chippewa Indian reser-
vation are commencing to move in
earnest toward the consummation of
their wishes and what they consider
their rights. A joint session of the
Commercial club of Cass Lake and the
Industrial association of Walker was
held at Strawbridge hall, Cass Lake,
at which time resolutions to this end
were adopted.

Eleven Men Injured.

Cincinnati, July 29.—Eleven men
were injured, perhaps fatally, in a gas
explosion in the new waterworks tun-
nel, now in course of construction in
this city. The explosion occurred 140
feet under ground.

TWO FAMILIES FIGHT

ENGAGE IN A DUEL WITH WIN-
CHESTER RIFLES NEAR MEM-
PHIS, TENN.

RESULT OF ROYISH QUARREL

Their Families Take Sides With Them
and Use Their Guns With Disas-
trous Effect—One of Them is Dead,
Two Badly Wounded and Another
is a Fugitive From Justice as a
Result.

Memphis, Tenn., July 29.—Edwin
Blalock, dead with a Winchester rifle
ball through his brain; M. F. Blalock,
leg broken by a bullet; Robert Wright,
Sr., leg broken by a bullet; Robert
Wright, Jr., a fugitive from justice.
Such is the net result of a desperate
duel with Winchester rifles which oc-
curred south of the city and near
Forest Hill cemetery. The tragedy
grew out of a dispute between Robert
Wright, Jr., and Edwin Blalock.

The fathers backed the boys up with
rifles on neutral ground. When within a
few yards of each other the first shot
was fired. Then sharp and quick the
resounding reports of firearms were
heard by the neighbors. At almost the
first shot from the side of the Wrights
young Blalock fell with a rifle ball
through his brain. His brother Fred
picked up his rifle, and took the brunt
of the battle on his shoulders. Finally
the elder Wright had to be taken off
the battle ground with a bullet in his
leg, and Blalock, injured in almost the
same way, was carried into his house.
The two young men took a few shots
at each other as they retreated, each
toward his own home.

Robert Wright, Jr., and Edwin Bla-
lock, the dead boy, had a slight quar-
rel. Wright, it was said, told it
around that he had given Blalock a
black eye. The two families, on ac-
count of this little difference between
the young fellows, became estranged
and the day's tragedy resulted.

An Old Time Telegrapher Dead.

Louisville, Ky., July 29.—W. H.
Johnson, who is said to have invented
the switchboard now used in an im-
proved form by the Western Union
Telegraph company, while he was em-
ployed in the manufacturing depart-
ment of that company in Cleveland
in 1855, died here of apoplexy. He
was a charter member of the Old Time
Telegrapher's association. Mr. John-
son was born in Williamstown, Mass.,
May 6, 1824.

Blinded by Carbolic Acid.

Muncie, Ind., July 29.—Peter Till-
bury, an iron worker, called at the
home of Kate Phinney and threw car-
bolic acid into the face of Mrs. Mary
Torrey, a guest, destroying her eyes
and burning her neck and arms fright-
fully. The man has pleaded with the
woman for years to marry him. She
has become a raving maniac.

Another Monte Carlo.

London, July 29.—"Buda Pest pa-
pers are filled," says a dispatch to The
Daily Express from the Hungarian
capital, "with accounts of a project
said to be promoted by American fi-
nanciers, for the creation of another
but more luxurious Monte Carlo on
Magarethen Island, opposite the upper
end of the city on the Danube."

IS SOVEREIGN OF TURKEY.

Sultan's Officials' Reply to the Pro-
tests of Foreign Legations.

Constantinople, July 29.—Saturday
the sultan agreed to comply with the
demand made by the Russian govern-
ment for the release of the Servians
recently arrested in Albania, together
with the restoration of arms taken and
for the recall of Djemel Bey, the Mute-
sarrif of Preshtina, the instigator of
the arrests. Notwithstanding this
prompt compliance the arrests were
continued and during the day Russia
repeated her demand in peremptory
terms.

France is pressing for a settlement
on account of the French owned
docks, the contract calling for their
purchase by Turkey. All the legations
are making preparations against inter-
ference by the porte with the decisions
of the sanitary council. The
porte officials receive these protests
with the utmost serenity, replying
that the sultan is the sovereign of
Turkey.

ITALIAN BANK SCANDAL.

Officials Falsify Books and Declare
Dividends Which Are Not Earned.

Rome, July 29.—If the leading finan-
cial newspapers of Italy can be trusted
this country is about to witness an
exposure of one of the worst scandals
of modern times.

The Economista declares that the
Bank of Italy for years has declared
a dividend which it has never earned,
and that the books of the bank had
been systematically falsified. The
Economista merely says it has been
mainly influenced by fear of low quo-
tations of the bank shares and by po-
litical considerations.

Other newspapers are calling for the
prosecution of the incriminated of-
ficials and it is difficult to see how
the government can resist the demands.

DROUTH BROKEN IN KANSAS.

Rainfall of From a Quarter of an Inch
to Two Inches Reported.

Atchison, Kan., July 29.—The drouth
in Northern Kansas, which has lasted
without interruption since April 15,
is at last broken. The Missouri Pa-
cific railway has received reports from
all its stations which extend 300
miles westward from the Missouri
river and northward into Nebraska
and all except two or three report a
downpour of from a fourth of an inch
to two inches. The rain was a steady
drizzling one and lasted in most places
for three or four hours. The parched
earth absorbed the moisture as fast
as it fell.

HISTORIAN PASSES AWAY.

Dorus Morton Fox, Who Started Tip-
pecanoe Movement, Is Dead.

Des Moines, Ia., July 29.—Dorus
Morton Fox, author of the "History of
Political Parties, National Remin-
iscences and the Tippecanoe Move-
ment," is dead. He was largely in-
strumental in starting the Tippecanoe
movement in 1838, when Benjamin
Harrison was nominated for the presi-
dency. Mr. Fox was born in 1817,
the state of New York.

General Wood Leaves Cuba.

Havana, July 29.—General Wood
was taken on board the steamer Mor-
ro Castle during the day. He ex-
pressed himself as being quite well
and wanted to walk aboard the vessel, but
the doctors insisted upon his being
carried on board on a portable cot.
Deep sympathy with General Wood
was shown by Cubans of all classes
upon his departure.

BRAINERD DAILY DISPATCH.

VOLUME 1, NO 48.

BRAINERD, MINN., MONDAY, JULY 29, 1901.

PRICE TWO CENTS.

The Best Goods In the World Are

S Premium Hams.	R Home Made Bread.
W Premium Bacon.	E Whole Wheat Bread.
I Silver Leaf Lard.	C Vienne Bread.

Mills and Yards at Rice Lake, East Brainerd.

We have constantly on hand a complete stock of Lumber, Lath,
Shingles and Building Material. Short Lumber of all grades, and
Low Grade of Dimension and boards at very low prices for Cash.

DOES GREAT DAMAGE

CROPS IN THE RED RIVER VAL-
LEY INJURED BY WIND
AND RAIN.

NEARLY READY TO HARVEST

Many Farmers Were Planning to Be-
gin Cutting This Week, But the
Storm Will Delay Matters Several
Days—Takes a Cyclonic Form at
Tappen, N. D., and Destroys a Num-
ber of Buildings.

Fargo, N. D., July 29.—Twenty thou-
sand acres of wheat in North Dakota
have been lodged by a rain and wind
storm. The entire eastern half of the
state has suffered. At Fargo nearly
two inches of rain fell, and the wind
reached a velocity of 40 miles an hour.
The rain was general as far north as
the Canadian line, and is thought to
have done more damage on the Min-
nesota side between Fargo and Crook-
ston. The lodged grain was badly
tangled by the wind's changing its
direction during the storm.

Reports from many sections of the
state conflict as to the amount of dam-
age done, and while some declare the
grain is hopelessly lodged on account
of the extra heavy straw and its prac-
tical maturity, more optimistic ac-
counts come from other places, where
it is thought a warm day or two will
straighten the grain up. On account
of the heavy rainfall it will be impos-
sible to get harvesting machines in the
fields for a number of days. Many
farmers had arranged to commence
harvesting early this week.

West of Fargo the storm took the
form of a tornado, and at Tappen, be-
tween Jamestown and Bismarck, the
church, a store and some barns were
blown down, and the Northern Pacific
depot unroofed. The tornado was sev-
eral miles wide, and entirely destroyed
all the crops in its path.

DULUTH'S BIG TIMBER DEAL.

A Million Dollars Paid for 170,000,000
Feet of Pine.

Duluth, July 29.—One of the largest
timber deals that has been made in
Northern Minnesota in many years
has just been completed. Cook and
Turish of Duluth and their associates
transfer to the Brooks Timber com-
pany 170,000,000 feet of pine in St.
Louis and Lake counties for a con-
sideration of \$1,000,000 in round
numbers. The Brooks Timber company
is the pine corporation of the Brooks-
Scanlon Lumber company and the
Scanlon-Gipson Lumber company.

The pine that has just been acquired
by the Brooks Timber company will
be sawed at Cloquet in the new saw-
mill of the Brooks-Scanlon company,
which will be completed about Sept.
1. It will be necessary for the com-
pany to build a logging road 35 miles
long to deliver the pine to the mill.
The bulk of the timber is in St. Louis
county. The Brooks-Scanlon company
now owns about 450,000,000 feet of
pine tributary to this mill.

ONE MAY DIE.

Duluth Street Car Plunges Off a
Thirty-Foot Trestle.

Duluth, July 29.—A West Duluth
street car jumped the track and
plunged off a 30-foot trestle in the
west end of the city early in the morn-
ing, with the result that Louis Felix,
a laborer, one of the passengers, lies
at St. Mary's hospital unconscious,
with several wounds in his head, and
will probably die. Fortunately, there
were only three passengers in the car
besides the operators. All were more
or less bruised, but none seriously.
The car struck on its front end in a
swamp and stood on end. The motor-
man was in front at the brake, but be-
yond a few painful bruises, was un-
injured.

THOUGHT IT WAS A BURGLAR.

Farmer Living Near Hokah Minn.,
Kills a Large Bear.

La Crosse, Wis., July 29.—S. C.
Davis, a farmer residing in Minnesota,
a few miles from Hokah, was awak-
ened during the night by a scratching
at one of his windows. He reached
for his rifle, thinking that a burglar
fired through the window. There was
a shattering of glass, a howl of pain,
then all was quiet. He went outside
and there found that he had killed a
large bear. The appearance of a bear
in this vicinity is something unusual
and his presence cannot be accounted
for.

Three Yachts Capsize.

Chicago, July 29.—Three pleasure
yachts capsized off Chicago during a
heavy squall that preceded a rain-
storm, and though no lives were lost
the life saving crews and the police
were kept busy for some time rescuing
persons whose lives were in the great-
est peril. Fourteen persons were
taken from the water.

GERMAN TRADE REVIEWS.

Read Like Confessions of National Fi-
nancial Sins.

Berlin, July 29.—The weekly finan-
cial reviews read like confessions of
national financial sins. The Kreuz
Zeitung begins thus: No week passes
without revealing outrageous misman-
agement in some German stock com-
pany. A feeling of deep humiliation
therefore burdens the mercantile
classes, growing heavier and heavier.
The German name is tarnished before
foreign countries for years and the
whole nation must suffer in conse-
quence.

The Vossische Zeitung says:
Swindling operations like those of
Schmidt, Exner and Terlingen can be
performed only in an era of financial
credulity like the one we have just
had.

The National Zeitung says that "the
improvement of the market is pre-
vented by a growing distrust which is
continually looking for irregularities and
crimes in the management of com-
panies."

The cause of these expressions was
the publication of the condition of the
Leipsiger bank, showing a state of
things much more rotten than had
been expected from the Terlingen
revelations.

GERMANY'S NEW TARIFF.

Austria-Hungary and Russia May In-
stitute Reprisals.

London, July 29.—"The draft of the
new German tariff has caused great
excitement in interested circles
throughout Austria-Hungary," says the
Vienna correspondent of The Stand-
ard, "because the tariff threatens ex-
ports of barley, oats, cattle and tim-
ber. Some papers assert that a com-
mercial treaty between Austria-Hun-
gary and Germany will be impossible
if the proposed enormous increase of
duties is insisted upon. The excuse
is made for the extravagance of the
new duties that they will not become
law."

The Fremdenblatt, the organ of the
Austro-Hungarian foreign office, com-
menting upon the proposed German
tariff law, says: "If Germany wishes
a tariff war, Austria, Russia and the
United States will be ready to under-
take it."

London, July 30.—"The publication
of the German tariff bill has caused
considerable depression in government
circles here," says the St. Petersburg
correspondent of The Daily Mail. "M.
de Witte will certainly institute re-
prisals if the bill becomes a law."

MEDALS THROWN AWAY.

Astonishing Action of Members of the
Imperial Yeomanry.

London, July 29.—The drinking
places on the Strand Friday evening
were filled with members of the Im-
perial Yeomanry, who astonished their
friends by throwing their war medals
upon the floor and stamping upon
them. These medals were given by
King Edward to the yeomanry Friday
morning. In explanation of their
anger the yeomanry alleged the gov-
ernment was in arrears with their pay
and referred to the blunders of of-
ficials. One yeoman said:

"Our names are misspelled and our
rank and command are wrong in six
cases out of ten. We supposed the
medals would be worth something to
our friends and posterity, but mine is
not worth anything but to chuck
away."

The example of this man was fol-
lowed by others.

APPEALS TO HIS GOVERNMENT

William Radcliffe Asks for British
Protection.

Denver, July 29.—William Rad-
cliffe, owner of the lease on the Grand
Mesa lakes, in Delta county, has been
summoned to Washington for consul-
tation with the state department. This
gives an international aspect to the
recent shooting of two men by a de-
puty game warden, the burning of Rad-
cliffe's hotel, and the threatened lyn-
ching of himself by a mob of Delta county
citizens.

Radcliffe claims to be a subject of
King Edward and has appealed to his
government to protect his life and
have him reimbursed for the loss of
his property.

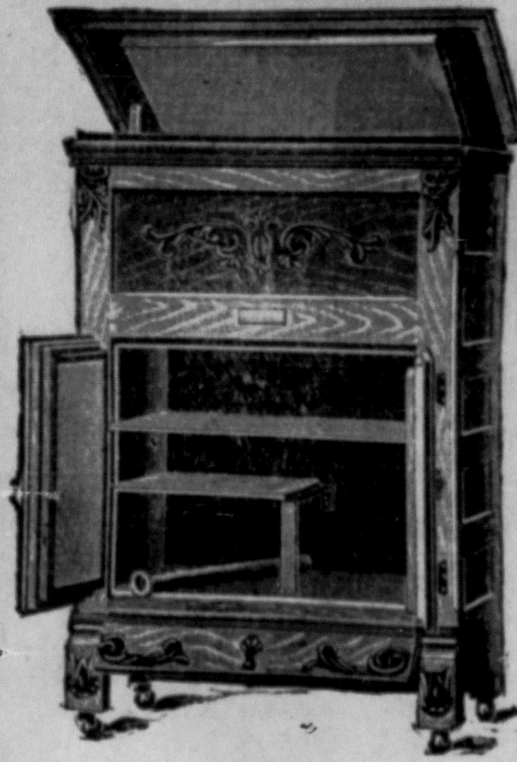

WANT CONGRESS TO ACT.

Cass Lake and Walker Anxious That
Reservation Be Opened.

Cass Lake, Minn., July 29.—The peo-
ple who are most interested in the
opening of the Chippewa Indian reser-
vation are commencing to move in
earnest toward the consummation of
their wishes and what they consider
their rights. A joint session of the
Commercial club of Cass Lake and the
Industrial association of Walker was
held at Strawbridge hall, Cass Lake,
at which time resolutions to this end
were adopted.

Eleven Men Injured.

Cincinnati, July 29.—Eleven men
were injured, perhaps fatally, in a gas
explosion in the new waterworks tun-
nel, now in course of construction in
this city. The explosion occurred 140
feet under ground.

TWO FAMILIES FIGHT

ENGAGE IN A DUEL WITH WIN-
CHESTER RIFLES NEAR MEM-
PHIS, TENN.

RESULT OF BOYISH QUARREL

Their Families Take Sides With Them
and Use Their Guns With Disas-
trous Effect—One of Them Is Dead,
Two Badly Wounded and Another
Is a Fugitive From Justice as a
Result.

Memphis, Tenn., July 29.—Edwin
Blalock, dead with a Winchester rifle
ball through his brain; M. F. Blalock,
leg broken by a bullet; Robert Wright,
Sr., leg broken by a bullet; Robert
Wright, Jr., a fugitive from justice.
Such is the net result of a desperate
duel with Winchester rifles which oc-
curred south of the city and near
Forest Hill cemetery. The tragedy
grew out of a dispute between Robert
Wright, Jr., and Edwin Blalock.

The fathers backed the boys up and
the two families lined up with rifles
on neutral ground. When within a
few yards of each other the first shot
was fired. Then sharp and quick the
resounding reports of firearms were
heard by the neighbors. At almost the
first shot from the side of the Wrights
young Blalock fell with a rifle ball
through his brain. His brother Fred
picked up his rifle, and took the brunt
of the battle on his shoulders. Finally
the elder Wright had to be taken off
the battle ground with a bullet in his
leg, and Blalock, injured in almost the
same way, was carried into his house.
The two young men took a few shots
at each other as they retreated, each
toward his own home.

Robert Wright, Jr., and Edwin Blalock,
the dead boy, had a slight quar-
rel. Wright, it was said, told it
around that he had given Blalock a
black eye. The two families, on ac-
count of this little difference between
the young fellows, became estranged
and the day's tragedy resulted.

An Old Time Telegrapher Dead.

Louisville, Ky., July 29.—W. H.
Johnson, who is said to have invented
the switchboard now used in an im-
proved form by the Western Union
Telegraph company, while he was em-
ployed in the manufacturing depart-
ment of that company in Cleveland
in 1855, died here of apoplexy. He
was a charter member of the Old Time
Telegrapher's association. Mr. John-
son was born in Williamstown, Mass.,
May 6, 1834.

Blinded by Carbolic Acid.

Muncie, Ind., July 29.—Peter Till-
bury, an iron worker, called at the
home of Kate Phinney and threw car-
bolic acid into the face of Mrs. Mary
Torrey, a guest, destroying her eyes
and burning her neck and arms fright-
fully. The man has pleaded with the
woman for years to marry him. She
has become a raving maniac.

Another Monte Carlo.

London, July 29.—"Buda Pest pa-
pers are filled," says a dispatch to The
Daily Express from the Hungarian
capital, "with accounts of a project
said to be promoted by American fi-
nanciers, for the creation of another
but more luxurious Monte Carlo on
Magarethen island, opposite the upper
end of the city on the Danube."

IS SOVEREIGN OF TURKEY.

Sultan's Officials' Reply to the Pro-
tests of Foreign Legations.

Constantinople, July 29.—Saturday
the sultan agreed to comply with the
demand made by the Russian govern-
ment for the release of the Servians
recently arrested in Albania, together
with the restoration of arms taken and
for the recall of Djemel Bey, the Mute-
sarrif of Preshtina, the instigator of
the arrests. Notwithstanding this
prompt compliance the arrests were
continued and during the day Russia
repeated her demand in peremptory
terms.

France is pressing for a settlement
on account of the French owned
docks, the contract calling for their
purchase by Turkey. All the legations
are making preparations against inter-
ference by the porte with the decisions
of the sanitary council. The
porte officials receive these protests
with the utmost serenity, replying
that the sultan is the sovereign of
Turkey.

ITALIAN BANK SCANDAL.

Officials Falsify Books and Declare
Dividends Which Are Not Earned.

Rome, July 29.—If the leading finan-
cial newspapers of Italy can be trusted
this country is about to witness an
exposure of one of the worst scandals
of modern times.

The Economista declares that the
Bank of Italy for years has declared
a dividend which it has never earned,
and that the books of the bank had
been systematically falsified. The
Economista merely says it has been
mainly influenced by fear of low quo-
tations of the bank shares and by po-
litical considerations.

Other newspapers are calling for the
prosecution of the incriminated of-
ficials and it is difficult to see how
the government can resist the demands.

DROUTH BROKEN IN KANSAS.

Rainfall of From a Quarter of an Inch
to Two Inches Reported.

Atchison, Kan., July 29.—The drouth
in Northern Kansas, which has lasted
without interruption since April 15,
is at last broken. The Missouri Pa-
cific railway has received reports from
all its stations which extend 300
miles westward from the Missouri
river and northward into Nebraska
and all except two or three report a
downpour of from a fourth of an inch
to two inches. The rain was a steady
drizzling one and lasted in most places
for three or four hours. The parched
earth absorbed the moisture as fast
as it fell.

HISTORIAN PASSES AWAY.

Dorus Morton Fox, Who Started Tip-
pecanoe Movement, Is Dead.

Des Moines, Ia., July 29.—Dorus
Morton Fox, author of the "History of
Political Parties, National Remin-
iscences and the Tippecanoe Move-
ment," is dead. He was largely in-
strumental in starting the Tippecanoe
movement in 1838, when Benjamin
Harrison was nominated for the presi-
dency. Mr. Fox was born in 1817,
the state of New York.

General Wood Leaves Cuba.

Havana, July 29.—General Wood
was taken on board the steamer Mor-
ro Castle during the day. He expres-
sed himself as being quite well and
wanted to walk aboard the vessel, but
the doctors insisted upon his being
carried on board on a portable cot.
Deep sympathy with General Wood
was shown by Cubans of all classes
upon his departure.

LOCAL NEWS NOTES.

Prof. Deering left this noon for Aitkin.
Rev. Roderick J. Mooney left this noon for Minneapolis.
Judge Holland went to St. Paul this morning on business.
Past, present and future only 20 cents. 220, 5th street.
Miss Mabel Brown has returned from Walker where she visited for two weeks.
J. W. Strutevant, of Pine River, is transacting business in the city today.
Mr. and Mrs. W. W. Johnson, of Staples, are in the city visiting old friends.

City Attorney Crowell has returned from Mille Laes lake where he enjoyed a pleasant outing.
Mrs. J. C. Morse, representing Sprague, Warner & Co., of Chicago, left today for Staples.

Workmen on the new Park Opera house have nearly completed the foundation on the new building.
H. H. Dreyer, of the Lion Clothing Co., leaves tomorrow for St. Louis, for a short visit.
Miss Eva McDonald has gone to Duluth for a visit with Mr. and Mrs. H. H. Scobie.

Miss Nellie Burns left last night for a visit with friends and relatives at Sioux City and Omaha.

B. F. Chadburn, of Staples, was in the city yesterday visiting with his brother, Gil Chadburn, of the McFadden Drug Co.

Joe Limperich and Abbie May, of the St. Cloud Daily Times force, were in Brainerd Sunday with the base ball team.

Judge of Probate McFadden today appointed Mons Mahlum administrator of the estate of the late Henry Mahle.

Mr. and Mrs. Joel Liljundahl, who have been visiting in the city with Mr. and Mrs. L. Hultman, returned to their home this noon in Minneapolis.

There will be a festival at St. Francis Catholic church tomorrow evening from 5 to 10 o'clock. Supper and ice cream will be served and all are invited.

Dr. Rounds, who had been quite sick for a short time at Verndale, has returned to the city and is much improved and is able to be at his office now.

N. P. White, of the Northern Pacific shops at Gladstone, is in the city visiting with relatives and he will be a guest at White's camp at Gull Lake for a week or two.

Attorney C. A. Albright returned this morning from Bemidji, where he went to make arrangements for the big Company F excursion which is booked for Aug. 25.

Rev. J. C. Huntington is ill today at the residence of A. E. Losey. He had intended going to Duluth to meet his family for a trip on the lakes, but will be unable to do so for several days probably.

Prof. Deering, of Minneapolis, addressed the young men's meeting at the Y. M. C. A. yesterday afternoon. A. E. Losey was to have delivered his address on "Cromwell" but this was postponed to some future date.

The Y. M. C. A. will give an ice cream social this evening. Some of the good Ives' ice cream, of Minneapolis which was bought for the excursion but which was not all used will be served this evening.

Miss Lilly Weiser, of Valley City, who has been visiting at Aitkin, passed through the city last night enroute to Minneapolis. Miss Bessie Treigawny is well acquainted with the young lady and met her at the train.

There is some kicking being done today by northsiders. Two small boys made themselves very much disliked by cutting down two trees in the park yesterday afternoon just to be smart and if the performance is repeated the young men are promised severe punishment.

Miss Ella Parker leaves tomorrow for Chicago for an extensive visit.
Editor A. G. Bernard, of Walker, is a guest in the city today.
Landlord McGarry, of Walker, is a guest in the city.

Hon. Frank Searle passed through the city this noon enroute to Duluth from St. Cloud.
J. D. Flint and Miss Adellia Flint, of Minneapolis arrived in the city today to visit for a time with Mr. and Mrs. H. Spalding.

A party of Chicagoans arrived in the city this noon and this afternoon they went out to Pine River where they will enjoy a few weeks outing.
President A. E. Fairchild, of the Guaranty Loan & Savings Co., of Minneapolis, is in the city visiting with N. B. Nettleton, the local representative.

On Friday, THE DISPATCH will publish a very unique story which cannot fail to attract the attention of every reader. Several prominent Brainerd people are to figure conspicuously in a real live romance on which account the story will be of particular local interest. Don't miss it, for if you do you'll miss a good thing.

CROPS DAMAGED.

Reports of A Big Storm in North Dakota Are Received--The Grain Is Lodged.

The following from the Pioneer Press gives an account of a storm which occurred in North Dakota Saturday afternoon:

A heavy rain and wind storm prevailed this afternoon over a good part of the state. The greatest damage is reported at Tappen, a hundred and twenty-five miles west of Fargo, where it amounted to a tornado. A church, a store, some dwellings and some barns were blown down and the Northern Pacific depot was unroofed. The crops in the path of the storm, which was several miles wide, was totally destroyed.

In the Red river valley rain fell from the national boundary line all the way down the state line. In the northern part there was not much wind, but around Fargo and over in Minnesota there was quite a heavy straight wind which has lodged the grain some, but just how seriously it is impossible to determine tonight.

The damage was made worse by the fact that the wind changed its direction during the storm and tangled the grain. The wind attained a velocity of nearly forty miles and blew for an hour. The rainfall was 1.60 inches and it will make it impossible for binders to be put in the fields for several days. Many farmers had planned to begin to harvest tomorrow or Tuesday. The grain is so heavy and so nearly matured that it is a matter of speculation whether it will straighten up, and harvesters may be able to operate in only one direction. Estimates of the damage from different sections are conflicting. A warm day or two may straighten much of the lodged wheat. Corn was badly lodged.

CURBSTONE CHAT.

Secretary Wilhelm: The excursion Saturday was the most orderly that I ever saw. Not a cross word spoken and everyone seemed to enjoy themselves.

Rev. Roderick J. Mooney: The new stained windows in St. Pauls church are beautiful and when all are installed it will make a decided improvement.

Landlord McGarry, Walker: Business is very good at Walker this summer. Walker is becoming a very popular place.

N. B. Nettleton: We have about decided to build three or four houses.
J. C. Hessel: We have just received a consignment of separators and engines and prospects are bright for a big trade in this line this fall.

THE WALKER EXCURSION.

The Y. M. C. A. Peoples Church Excursion was a success financially and otherwise.

The excursion to Walker on Saturday given by the Y. M. C. A. and Peoples church was a great success. The weather in the morning was not particularly favorable to an excursion but it cleared off at Walker in the afternoon and all who attended seemed to enjoy the day very much.
Financially the excursion was also a success and the Y. M. C. A. and Peoples church netted \$50 apiece.

Lost--A child's gold bracelet with three gold hearts. Leave at John Olson's 113, 3rd Avenue, or at this office.
Verbner's Ginger Ale at the Owl Pharmacy.

Neighborhood Gossip.

The new library fund at Cloquet still swells.

J. J. Boobar and wife of Washington, will be at St. Cloud for a time for a visit.

Owing to the illness of Judge Searle a term of the district court at St. Cloud was adjourned.

Rev. Smyth, of Verndale, pastor of the Congregational church, will resign, says the Verndale Sun.

A DeLacy Wood interviewed in St. Paul says the fact that he was sent to the insane asylum at Fergus Falls was all a hoax.

Mrs. Fred Peterson, living near Verndale, was thrown from a cart and received injuries which may result in her death.

Over at Grand Forks a man named Silberman got to thumping his wife, who caused his arrest. He declared the woman swiped stuff from him and sold it, which she admitted saying that she had to do so or starve, as he wouldn't provide for her.

At the last business session of the I. S. W. A., West Superior, it was decided to plan for the organization of an auxiliary organization composed of women of the four states of Wisconsin, Minnesota and Dakotas.

The largest timber deal of several seasons was consummated Saturday when Cook & Turrish, a Duluth logging firm, sold to the Brooks Timber company, a Minneapolis corporation, 170,000,000 feet of timber in St. Louis and Lake counties, involving about \$1,000,000. The Brooks interests are building a large sawmill at Cloquet and this purchase will supply them with enough timber for ten year's work. A thirty-five mile logging railroad will be built by the company to run to Cloquet from the newly acquired lands.

AMUSEMENTS.

The wonderful success and growth of Norris & Rowe's Big Trained Animal Shows can be traced to the fact that Norris & Rowe have always kept faith with the public and have always been on the alert for new and novel features. Each year the show has been improved and enlarged. It has been the aim and ambition of Norris & Rowe to give the public more for its money than could elsewhere be found. This season the show comes back double the size of last year and every act and feature absolutely new. This will be the farewell tour of Norris & Rowe's shows, at least for some years to come. They will shortly go to the Pan-American Exposition and then make a tour of the world. The show is too well known to need any introduction at our hands, suffice it to say that the show will exhibit in this city Friday, August 2, afternoon and night under their enormous waterproof tents. A grand free spectacular street carnival and children's fairland parade will be given at 11 a. m. on the morning of the exhibition.

Gun Club Shoot.

Yesterday morning the members of the Brainerd Gun club enjoyed a shoot at the grounds, near Swartz driving park. But one event was shot off, twenty-five birds, and J. Geodderz got the high score, killing 18 birds out of the 25.

The following is the individual score in this event:
J. Geodderz.....18
J. Goteau.....17
Ole Oviok.....16
H. Rosenberg.....13

Bids Wanted.

Sealed bids will be received by the undersigned until 12 o'clock noon Saturday, Aug. 10th, to paint school house in District No. 28, inside to be given two coats, outside one coat. Also to build brick foundation under the same. Address

J. J. STEARNS, Clerk
Brainerd, Minn.

the best
Optician in the
state can be consulted about eyes tomorrow morning at the Arlington Hotel. He closes his present engagement at noon, Aug. 1st. Examination is free.

NEW IMPROVEMENTS WILL BE MADE.

Northern Pacific Bank to Have Entire New Plate Glass Front.

OTHER ALTERATIONS MADE.

Several New Houses Will Be Erected at Once By Minneapolis Firm.

Workmen commenced tearing down the front of the Northern Pacific Bank building this morning and some extensive improvements are to be made in and about the building. The entire front of the bank will be torn out and new plate glass put in which will cost several thousand dollars. It will take sometime to make the repairs but when completed the building will present a very handsome appearance.

A crew of men also started in this morning tearing up the old walk in front and around the side of the bank, and new cement walks will be put down to conform with the new ordinance recently passed by the city council making the walk on Front street 16 feet wide and on Seventh street 12 feet wide.

A. E. Fairchild, president of the Guaranty Loan & Building Association is in the city today conferring with Local Representative Nettleton in reference to the erection of several modern houses in the city. They have already decided to build four and prospects are that they will build ten others before winter sets in.

CAUSE OF THE TORRIDITY.

Famous Man Discusses The Matter And Makes Many Explanations Regarding The Same

The burning heat now afflicting the whole of the United States and felt also on the other side of the Atlantic and generally throughout the northern hemisphere is convincing proof of the fact that the earth is the satellite of a variable star, says Garrett P. Serviss, writing from Ithaca, N. Y., to the New York Journal.

Only on the assumption that the source of terrible heat is directly in the sun and due to an extraordinary increase in its effective radiation can the widespread and long continued nature of the present meteorologic disaster be satisfactorily explained. Local causes are insufficient. The earth itself contains no store of heat capable of accounting for the outburst, and the suggested explanation that we are passing through a region of space where an uncommonly high temperature prevails is invalidated if for no other reason by the fact that similar periods of excessive temperature have occurred many times within the limits of recorded history and in a certain cyclical order, while from what we know of the direction of motion of the solar system through space we can confidently affirm that the earth does not pass again and again through the same region, but flies always northward along with the sun.

Accordingly we are driven to the belief that the source of the trouble is only in the sun. All astronomers know that the face of the sun is blanketed with absorbing vapors, while its interior is much hotter than the glowing shell that we see. Strip off the vaporous blanket entirely, and the surface of the earth would probably burst into smoke and flame in the instantaneous gush of unbearable heat that would be poured upon it. Whenever, as occurs periodically, though not always to the same extent, the solar vapors are thinned the heat from within leaps out through the weakened shell and strikes the earth and the other nearby planets as with a breath of fire from the suddenly opened door of a blazing furnace.

That is what has happened this summer, and the immediate agency that has flung open the furnace door and sent forth the destroying blast is the mysterious power whose visible manifestation is the presence of black sun spots. But it is a mistake to suppose that the sun spots themselves exercise any direct influence upon the weather or that there must be spots on the sun whenever there is extraordinary heat on the earth. The spots are simply indicators of the sun's condition, resembling in that respect the eruptions on the face of a smallpox patient. They tell the story of the sun's internal convulsions and indicate some of the places on its surface where the pent up forces are bursting out.

The sun is subject to strange physical disorder which shakes its system to the very center and, like a malarious disease, recurs in more or less regular periods, but with varying intensity. In fact, the similarity to some of the recurrent diseases that afflict humanity goes so far that there is a kind of double period in the sun spot cycle, and we have just now arrived at the beginning of the great primary period of the cycle which is marked by intensification of the solar disturbances

STOP PAYING RENT.

A chance to secure a delightful home of your own located where you want it and built as you want it, for same money you are now paying for rent.

Announcement Extraordinary.

I wish to announce to the citizens of Brainerd that I have completed arrangements whereby I am now in position to build houses and cottages in any part of the city to suit my customers, and sell them on a small cash payment the balance of purchase price and interest payable in monthly payments that amount to no more than ordinary rent.
This plan places a new up-to-date home within the reach of every thrifty family in Brainerd. More than that, it affords every family an opportunity to acquire a home for nothing, as the amount paid as rent pays for the home. Prompt action is necessary in order to complete houses this fall. See me at your earliest convenience. First come, first served. I can show plans of some very nice modern houses and cottages of neat and attractive designs.

P. B. Nettleton,
Palace Hotel.

REAL ESTATE LOANS.

IF you are going to build, and want a loan, you have a mortgage to renew, you want to borrow for any purpose.

Consult **P. B. NETTLETON.**

Loans Made for 3, 5, 7, 9 and 12 Year Terms.

I represent the only institution in the state that loans on monthly payments at a reasonable rate of interest, giving the borrower a definite contract as to number of payments to be made. All or a part of a loan may be paid at any time after two years. Loans placed on this line are not foreclosed because they are easily and systematically paid off.

Houses & Lots CASH BOUGHT FOR AND SOLD ON TIME.

Will buy a few houses and lots for cash. Sell them for small cash payment and let your rent money do the rest. Parties having houses and lots for sale should inform me. Those wanting to buy on the easiest terms ever offered should see me. A few new and older houses now for sale. For particulars call on or address

LOCAL NEWS NOTES.

Prof. Deering left this noon for Aitkin.

Rev. Roderick J. Mooney left this noon for Minneapolis.

Judge Holland went to St. Paul this morning on business.

Past, present and future only 20 cents. 220, 5th street.

Miss Mabel Brown has returned from Walker where she visited for two weeks.

J. W. Strutevant, of Pine River, is transacting business in the city today.

Mr. and Mrs. W. W. Johnson, of Staples, are in the city visiting old friends.

City Attorney Crowell has returned from Mille Lacs lake where he enjoyed a pleasant outing.

Mrs. J. C. Morse, representing Sprague, Warner & Co., of Chicago, left today for Staples.

Workmen on the new Park Opera house have nearly completed the foundation on the new building.

H. H. Dreyer, of the Lion Clothing Co., leaves tomorrow for St. Louis, for a short visit.

Miss Eva McDonald has gone to Duluth for a visit with Mr. and Mrs. H. H. Scoble.

Miss Nellie Burns left last night for a visit with friends and relatives at Sioux City and Omaha.

B. F. Chaddburn, of Staples, was in the city yesterday visiting with his brother, Gil Chaddburn, of the McFadden Drug Co.

Joe Limperich and Abbie May, of the St. Cloud Daily Times force, were in Brainerd Sunday with the base ball team.

Judge of Probate McFadden today appointed Mons Mahlum administrator of the estate of the late Henry Mahle.

Mr. and Mrs. Joel Liljundahl, who have been visiting in the city with Mr. and Mrs. L. Hultman, returned to their home this noon in Minneapolis.

There will be a festival at St. Francis Catholic church tomorrow evening from 5 to 10 o'clock. Supper and ice cream will be served and all are invited.

Dr. Rounds, who had been quite sick for a short time at Verndale, has returned to the city and is much improved and is able to be at his office now.

N. P. White, of the Northern Pacific shops at Gladstone, is in the city visiting with relatives and he will be a guest at White's camp at Gull Lake for a week or two.

Attorney C. A. Allbright returned this morning from Bemidji, where he went to make arrangements for the big Company F excursion which is booked for Aug. 25.

Rev. J. C. Huntington is ill today at the residence of A. E. Losey. He had intended going to Duluth to meet his family for a trip on the lakes, but will be unable to do so for several days probably.

Prof. Deering, of Minneapolis, addressed the young men's meeting at the Y. M. C. A. yesterday afternoon. A. E. Losey was to have delivered his address on "Cromwell" but this was postponed to some future date.

The Y. M. C. A. will give an ice cream social this evening. Some of the good lasses' ice cream, of Minneapolis which was bought for the excursion but which was not all used will be served this evening.

Miss Lilly Weiser, of Valley City, who has been visiting at Aitkin, passed through the city last night enroute to Minneapolis. Miss Bessie Trelgawny is well acquainted with the young lady and met her at the train.

There is some kicking being done today by northsiders. Two small boys made themselves very much disliked by cutting down two trees in the park yesterday afternoon just to be smart and if the performance is repeated the young men are promised severe punishment.

Miss Ella Parker leaves tomorrow for Chicago for an extensive visit.

Editor A. G. Bernard, of Walker, is a guest in the city today.

Landlord McGarry, of Walker, is a guest in the city.

Hon. Frank Searle passed through the city this noon enroute to Duluth from St. Cloud.

J. D. Flint and Miss Adella Flint, of Minneapolis arrived in the city today to visit for a time with Mr. and Mrs. H. Spalding.

A party of Chicagoans arrived in the city this noon and this afternoon they went out to Pine River where they will enjoy a few weeks outing.

President A. E. Fairchild, of the Guaranty Loan & Savings Co., of Minneapolis, is in the city visiting with N. B. Nettleton, the local representative.

On Friday, THE DISPATCH will publish a very unique story which cannot fail to attract the attention of every reader. Several prominent Brainerd people are to figure conspicuously in a real live romance on which account the story will be of particular local interest. Don't miss it, for if you do you'll miss a good thing.

CROPS DAMAGED.

Reports of A Big Storm In North Dakota Are Received—The Grain Is Lodged.

The following from the Pioneer Press gives an account of a storm which occurred in North Dakota Saturday afternoon:

A heavy rain and wind storm prevailed this afternoon over a good part of the state. The greatest damage is reported at Tappen, a hundred and twenty-five miles west of Fargo, where it amounted to a tornado. A church, a store, some dwellings and some barns were blown down and the Northern Pacific depot was unroofed. The crops in the path of the storm, which was several miles wide, was totally destroyed.

In the Red river valley rain fell from the national boundary line all the way down the state line. In the northern part there was not much wind, but around Fargo and over in Minnesota there was quite a heavy straight wind which has lodged the grain some, but just how seriously it is impossible to determine tonight.

The damage was made worse by the fact that the wind changed its direction during the storm and tangled the grain. The wind attained a velocity of nearly forty miles and blew for an hour. The rainfall was 1.60 inches and it will make it impossible for binders to be put in the fields for several days. Many farmers had planned to begin to harvest tomorrow or Tuesday. The grain is so heavy and so nearly matured that it is a matter of speculation whether it will straighten up, and harvesters may be able to operate in only one direction. Estimates of the damage from different sections are conflicting. A warm day or two may straighten much of the lodged wheat. Corn was badly lodged.

CURBSTONE CHAT.

Secretary Wilhelm: The excursion Saturday was the most orderly that I ever saw. Not a cross word spoken and everyone seemed to enjoy themselves.

Rev. Roderick J. Mooney: The new stained windows in St. Pauls church are beautiful and when all are installed it will make a decided improvement.

Landlord McGarry, Walker: Business is very good at Walker this summer. Walker is becoming a very popular place.

N. B. Nettleton: We have about decided to build three or four houses.

J. C. Hessel: We have just received a consignment of separators and engines and prospects are bright for a big trade in this line this fall.

THE WALKER EXCURSION.

The Y. M. C. A.—Peoples Church Excursion was A success Financially and Otherwise.

The excursion to Walker on Saturday given by the Y. M. C. A. and Peoples church was a great success. The weather in the morning was not particularly favorable to an excursion but it cleared off at Walker in the afternoon and all who attended seemed to enjoy the day very much.

Financially the excursion was also a success and the Y. M. C. A. and Peoples church netted \$50 apiece.

Lost—A child's gold bracelet with three gold hearts. Leave at John Olson's 113, 3rd Avenue, or at this office.

Vernor's Ginger Ale at the Owl Pharmacy.

Neighborhood Gossip.

The new library fund at Cloquet still swells.

J. J. Boobar and wife of Washington, will be at St. Cloud for a time for a visit.

Owing to the illness of Judge Searle a term of the district court at St. Cloud was adjourned.

Rev. Smyth, of Verndale, pastor of the Congregational church, will resign, says the Verndale Sun.

A DeLacy Wood interviewed in St. Paul says the fact that he was sent to the insane asylum at Fergus Falls was all a hoax.

Mrs. Fred Peterson, living near Verndale, was thrown from a cart and received injuries which may result in her death.

Over at Grand Forks a man named Silberman got to thumping his wife, who caused his arrest. He declared the woman swiped stuff from him and sold it, which she admitted saying that she had to do so or starve, as he wouldn't provide for her.

At the last business session of the I. S. W. A., West Superior, it was decided to plan for the organization of an auxiliary organization composed of women of the four states of Wisconsin, Minnesota and Dakotas.

The largest timber deal of several seasons was consummated Saturday when Cook & Turish, a Duluth logging firm, sold to the Brooks Timber company, a Minneapolis corporation, 170,000,000 feet of timber in St. Louis and Lake counties, involving about \$1,000,000. The Brooks interests are building a large sawmill at Cloquet and this purchase will supply them with enough timber for ten years' work. A thirty-five mile logging railroad will be built by the company to run to Cloquet from the newly acquired lands.

AMUSEMENTS.

The wonderful success and growth of Norris & Rowe's Big Trained Animal Shows can be traced to the fact that Norris & Rowe have always kept faith with the public and have always been on the alert for new and novel features. Each year the show has been improved and enlarged. It has been the aim and ambition of Norris & Rowe to give the public more for its money than could elsewhere be found. This season the show comes back double the size of last year and every act and feature absolutely new. This will be the farewell tour of Norris & Rowe's shows, at least for some years to come. They will shortly go to the Pan-American Exposition and then make a tour of the world. The show is too well known to need any introduction at our hands, suffice it to say that the show will exhibit in this city Friday, August 2, afternoon and night under their enormous waterproof tents. A grand free spectacular street carnival and children's fairland parade will be given at 11 a. m. on the morning of the exhibition.

Gun Club Shoot.

Yesterday morning the members of the Brainerd Gun club enjoyed a shoot at the grounds, near Swartz driving park. But one event was shot off, twenty-five birds, and J. Geodderz got the high score, killing 18 birds out of the 25.

The following is the individual score in this event:

J. Geodderz 18
J. Goteau 17
O. Owick 16
H. Rosenberg 13

Weather.

Fair tonight and Tuesday.

LOCAL NEWS NOTES.

Prof. Deering left this noon for Aitkin.

Rev. Roderick J. Mooney left this noon for Minneapolis.

Judge Holland went to St. Paul this morning on business.

Past, present and future only 20 cents. 220, 5th street.

Miss Mabel Brown has returned from Walker where she visited for two weeks.

J. W. Strutevant, of Pine River, is transacting business in the city today.

Mr. and Mrs. W. W. Johnson, of Staples, are in the city visiting old friends.

City Attorney Crowell has returned from Mille Lacs lake where he enjoyed a pleasant outing.

Mrs. J. C. Morse, representing Sprague, Warner & Co., of Chicago, left today for Staples.

Workmen on the new Park Opera house have nearly completed the foundation on the new building.

H. H. Dreyer, of the Lion Clothing Co., leaves tomorrow for St. Louis, for a short visit.

Miss Eva McDonald has gone to Duluth for a visit with Mr. and Mrs. H. H. Scobie.

Miss Nellie Burns left last night for a visit with friends and relatives at Sioux City and Omaha.

B. F. Chadburn, of Staples, was in the city yesterday visiting with his brother, Gil Chadburn, of the McFadden Drug Co.

Joe Limperich and Abbie May, of the St. Cloud Daily Times force, were in Brainerd Sunday with the base ball team.

Judge of Probate McFadden today appointed Mons Mahlum administrator of the estate of the late Henry Mahle.

Mr. and Mrs. Joel Lilljundahl, who have been visiting in the city with Mr. and Mrs. L. Hultman, returned to their home this noon in Minneapolis.

There will be a festival at St. Francis Catholic church tomorrow evening from 5 to 10 o'clock. Supper and ice cream will be served and all are invited.

Dr. Rounds, who had been quite sick for a short time at Verndale, has returned to the city and is much improved and is able to be at his office now.

N. P. White, of the Northern Pacific shops at Gladstone, is in the city visiting with relatives and he will be a guest at White's camp at Gull Lake for a week or two.

Attorney C. A. Allbright returned this morning from Bemidji, where he went to make arrangements for the big Company Excursion which is booked for Aug. 25.

Rev. J. C. Huntington is ill today at the residence of A. E. Losey. He had intended going to Duluth to meet his family for a trip on the lakes, but will be unable to do so for several days probably.

Prof. Deering, of Minneapolis, addressed the young men's meeting at the Y. M. C. A. yesterday afternoon. A. E. Losey was to have delivered his address on "Cromwell" but this was postponed to some future date.

The Y. M. C. A. will give an ice cream social this evening. Some of the good lasses' ice cream, of Minneapolis which was bought for the excursion but which was not all used will be served this evening.

Miss Lilly Weiser, of Valley City, who has been visiting at Aitkin, passed through the city last night enroute to Minneapolis. Miss Bessie Treigawny is well acquainted with the young lady and met her at the train.

There is some kicking being done today by northsiders. Two small boys made themselves very much disliked by cutting down two trees in the park yesterday afternoon just to be smart and if the performance is repeated the young men are promised severe punishment.

Miss Ella Parker leaves tomorrow for Chicago for an extensive visit.

Editor A. G. Bernard, of Walker, is a guest in the city today.

Landlord McGarry, of Walker, is a guest in the city.

Hon. Frank Searle passed through the city this noon enroute to Duluth from St. Cloud.

J. D. Flint and Miss Adellia Flint, of Minneapolis arrived in the city today to visit for a time with Mr. and Mrs. H. Spalding.

A party of Chicagoans arrived in the city this noon and this afternoon they went out to Pine River where they will enjoy a few weeks outing.

President A. E. Fairchild, of the Guaranty Loan & Savings Co., of Minneapolis, is in the city visiting with N. B. Nettleton, the local representative.

On Friday, THE DISPATCH will publish a very unique story which cannot fail to attract the attention of every reader. Several prominent Brainerd people are to figure conspicuously in a real live romance on which account the story will be of particular local interest. Don't miss it, for if you do you'll miss a good thing.

CROPS DAMAGED.

Reports of A Big Storm in North Dakota Are Received--The Grain Is Lodged.

The following from the Pioneer Press gives an account of a storm which occurred in North Dakota Saturday afternoon:

A heavy rain and wind storm prevailed this afternoon over a good part of the state. The greatest damage is reported at Tappen, a hundred and twenty-five miles west of Fargo, where it amounted to a tornado. A church, a store, some dwellings and some barns were blown down and the Northern Pacific depot was unroofed. The crops in the path of the storm, which was several miles wide, was totally destroyed.

In the Red river valley rain fell from the national boundary line all the way down the state line. In the northern part there was not much wind, but around Fargo and over in Minnesota there was quite a heavy straight wind which has lodged the grain some, but just how seriously it is impossible to determine tonight. The damage was made worse by the fact that the wind changed its direction during the storm and tangled the grain. The wind attained a velocity of nearly forty miles and blew for an hour. The rainfall was 1.60 inches and it will make it impossible for binders to be put in the fields for several days. Many farmers had planned to begin to harvest tomorrow or Tuesday. The grain is so heavy and so nearly matured that it is a matter of speculation whether it will straighten up, and harvesters may be able to operate in only one direction. Estimates of the damage from different sections are conflicting. A warm day or two may straighten much of the lodged wheat. Corn was badly lodged.

CURBSTONE CHAT.

Secretary Wilhelm: The excursion Saturday was the most orderly that I ever saw. Not a cross word spoken and everyone seemed to enjoy themselves.

Rev. Roderick J. Mooney: The new stained windows in St. Pauls church are beautiful and when all are installed it will make a decided improvement.

Landlord McGarry, Walker: Business is very good at Walker this summer. Walker is becoming a very popular place.

N. B. Nettleton: We have about decided to build three or four houses.

J. C. Hessel: We have just received a consignment of separators and engines and prospects are bright for a big trade in this line this fall.

THE WALKER EXCURSION.

The Y. M. C. A. Peoples Church Excursion was A success Financially and Otherwise.

The excursion to Walker on Saturday given by the Y. M. C. A. and Peoples church was a great success. The weather in the morning was not particularly favorable to an excursion but it cleared off at Walker in the afternoon and all who attended seemed to enjoy the day very much.

Financially the excursion was also a success and the Y. M. C. A. and Peoples church netted \$50 apiece.

Lost--A child's gold bracelet with three gold hearts. Leave at John Olson's 113, 3rd Avenue, or at this office.

Vernor's Ginger Ale at the Owl Pharmacy.

Neighborhood Gossip.

The new library fund at Cloquet still swells.

J. J. Boobar and wife of Washington, will be at St. Cloud for a time for a visit.

Owing to the illness of Judge Searle a term of the district court at St. Cloud was adjourned.

Rev. Smyth, of Verndale, pastor of the Congregational church, will resign, says the Verndale Sun.

A DeLacy Wood interviewed in St. Paul says the fact that he was sent to the insane asylum at Fergus Falls was all a hoax.

Mrs. Fred Peterson, living near Verndale, was thrown from a car and received injuries which may result in her death.

Over at Grand Forks a man named Silberman got to thumping his wife, who caused his arrest. He declared the woman swiped stuff from him and sold it, which she admitted saying that she had to do so or starve, as he wouldn't provide for her.

At the last business session of the I. S. W. A., West Superior, it was decided to plan for the organization of an auxiliary organization composed of women of the four states of Wisconsin, Minnesota and Dakotas.

The largest timber deal of several seasons was consummated Saturday when Cook & Turrish, a Duluth logging firm, sold to the Brooks Timber company, a Minneapolis corporation, 170,000,000 feet of timber in St. Louis and Lake counties, involving about \$1,000,000. The Brooks interests are building a large sawmill at Cloquet and this purchase will supply them with enough timber for ten year's work. A thirty-five mile logging railroad will be built by the company to run to Cloquet from the newly acquired lands.

AMUSEMENTS.

The wonderful success and growth of Norris & Rowe's Big Trained Animal Shows can be traced to the fact that Norris & Rowe have always kept faith with the public and have always been on the alert for new and novel features. Each year the show has been improved and enlarged. It has been the aim and ambition of Norris & Rowe to give the public more for its money than could elsewhere be found. This season the show comes back double the size of last year and every act and feature absolutely new. This will be the farewell tour of Norris & Rowe's shows, at least for some years to come. They will shortly go to the Pan-American Exposition and then make a tour of the world. The show is too well known to need any introduction at our hands, suffice it to say that the show will exhibit in this city Friday, August 2, afternoon and night under their enormous waterproof tents. A grand free spectacular street carnival and children's fairland parade will be given at 11 a. m. on the morning of the exhibition.

Gun Club Shoot.

Yesterday morning the members of the Brainerd Gun club enjoyed a shoot at the grounds, near Swartz driving park. But one event was shot off, twenty-five birds, and J. Geodderz got the high score, killing 18 birds out of the 25.

The following is the individual score in this event:

J. Geodderz	18
J. Goteau	17
Ole Ovick	16
H. Rosenberg	13

The Royal Palmistry Company opened today at 220 Fifth street. The ladies with this company read your past, present and future by palmistry for only 20 cents. Satisfaction guaranteed. 48-1

Bids Wanted.

Sealed bids will be received by the undersigned until 12 o'clock noon Saturday, Aug. 10th, to paint school house in District No. 28, inside to be given two coats, outside one coat. Also to build brick foundation under the same. Address

J. J. SYKES, Clerk
Brainerd, Minn.

BRUNS

The best Optician in the state can be consulted about eyes tomorrow morning at the Arlington Hotel. He closes his present engagement at noon, Aug. 1st. Examination is free.

NEW IMPROVEMENTS WILL BE MADE.

Northern Pacific Bank to Have Entire New Plate Glass Front.

OTHER ALTERATIONS MADE.

Several New Houses Will Be Erected at Once By Minneapolis Firm.

Workmen commenced tearing down the front of the Northern Pacific Bank building this morning and some extensive improvements are to be made in and about the building. The entire front of the bank will be torn out and new plate glass put in which will cost several thousand dollars. It will take sometime to make the repairs but when completed the building will present a very handsome appearance.

A crew of men also started in this morning tearing up the old walk in front and around the side of the bank, and new cement walks will be put down to conform with the new ordinance recently passed by the city council making the walk on Front street 16 feet wide and on Seventh street 12 feet wide.

A. E. Fairchild, president of the Guaranty Loan & Building Association is in the city today conferring with Local Representative Nettleton in reference to the erection of several modern houses in the city. They have already decided to build four and prospects are that they will build ten others before winter sets in.

CAUSE OF THE TORRIDITY.

Famous Man Discusses The Matter And Makes Many Explanations Regarding The Same

The burning heat now afflicting the whole of the United States and felt also on the other side of the Atlantic and generally throughout the northern hemisphere is convincing proof of the fact that the earth is the satellite of a variable star, says Garrett P. Serviss, writing from Ithaca, N. Y., to the New York Journal.

Only on the assumption that the source of terrible heat is directly in the sun and due to an extraordinary increase in its effective radiation can the widespread and long continued nature of the present meteorologic disaster be satisfactorily explained. Local causes are insufficient. The earth itself contains no store of heat capable of accounting for the outburst, and the suggested explanation that we are passing through a region of space where an uncommonly high temperature prevails is invalidated if for no other reason by the fact that similar periods of excessive temperature have occurred many times within the limits of recorded history and in a certain cyclical order, while from what we know of the direction of motion of the solar system through space we can confidently affirm that the earth does not pass again and again through the same region, but flies always northward along with the sun.

Accordingly we are driven to the belief that the source of the trouble is only in the sun. All astronomers know that the face of the sun is blanketed with absorbing vapors, while its interior is much hotter than the glowing shell that we see. Strip off the vaporous blanket entirely, and the surface of the earth would probably burst into smoke and flame in the instantaneous gush of unbearable heat that would be poured upon it. Whenever, as occurs periodically, though not always to the same extent, the solar vapors are thinned the heat from within leaps out through the weakened shell and strikes the earth and the other nearby planets as with a breath of fire from the suddenly opened door of a blazing furnace.

That is what has happened this summer, and the immediate agency that has flung open the furnace door and sent forth the destroying blast is the mysterious power whose visible manifestation is the presence of black sun spots. But it is a mistake to suppose that the sun spots themselves exercise any direct influence upon the weather or that there must be spots on the sun whenever there is extraordinary heat on the earth. The spots are simply indicators of the sun's condition, resembling in that respect the eruptions on the face of a smallpox patient. They tell the story of the sun's internal convulsions and indicate some of the places on its surface where the pent up forces are bursting out.

The sun is subject to strange physical disorder which shakes its system to the very center and, like a malarious disease, recurs in more or less regular periods, but with varying intensity. In fact, the similarity to some of the recurrent diseases that afflict humanity goes so far that there is a kind of double period in the sun spot cycle, and we have just now arrived at the beginning of the great primary period of the cycle which is marked by intensification of the solar disturbances.

STOP PAYING RENT.

A chance to secure a delightful home of your own located where you want it and built as you want it, for same money you are now paying for rent.

Announcement Extraordinary.

I wish to announce to the citizens of Brainerd that I have completed arrangements whereby I am now in position to build houses and cottages in any part of the city to suit my customers, and sell them on a small cash payment the balance of purchase price and interest payable in monthly payments that amount to no more than ordinary rent.

This plan places a new up-to-date home within the reach of every thrifty family in Brainerd. More than that, it affords every family an opportunity to acquire a home for nothing, as the amount paid as rent pays for the home. Prompt action is necessary in order to complete houses this fall. See me at your earliest convenience. First come, first served. I can show plans of some very nice modern houses and cottages of neat and attractive designs.

P. B. Nettleton,
Palace Hotel.

REAL ESTATE LOANS.

IF you are going to build, and want a loan, you have a mortgage to renew, you want to borrow for any purpose.

Consult **P. B. NETTLETON.**

Loans Made for 3, 5, 7, 9 and 12 Year Terms.

I represent the only institution in the state that loans on monthly payments at a reasonable rate of interest, giving the borrower a definite contract as to number of payments to be made. All or a part of a loan may be paid at any time after two years. Loans placed on this line are not foreclosed because they are easily and systematically paid off.

Houses & Lots CASH BOUGHT FOR CASH AND SOLD ON TIME.

Will buy a few houses and lots for cash. Sell them for small cash payment and let your rent money do the rest. Parties having houses and lots for sale should inform me. Those wanting to buy on the easiest terms ever offered should see me. A few new and older houses now for sale. For particulars call on or address

Money to Loan, New Houses for Sale. Easy Terms

Money loaned for building, enlarging, improving, or to pay off a mortgage or for other purposes. Lots bought, houses or stores built and sold for reasonable payment down and balance on easy terms. Call on or address, **P. B. NETTLETON,** Palace Hotel, Brainerd.

Low Rates To Buffalo Exposition via the Nickel Plate Road. Also special reduced rates Chicago to New York and return. Three through daily trains with vestibuled sleeping cars and excellent dining car service meals being served on the American Club Meals plan, ranging in price from 35 cents to \$1.00. Chicago Depot Van Buren St. & Pacific Ave., on the Elevated Loop. Write John Y. Calahan, General Agent, 111 Adams St., Chicago, for full information and beautifully illustrated descriptive folder of the Exposition Buildings and Grounds.

Bunch of keys lost. Liberal reward if left at this office.

A nice cool and refreshing drink or delicious ice cream soda at the Owl Pharmacy

Pan-American Exposition. For the above occasion tickets will be sold by the Northern Pacific Railway Co. for the round trip as follows: One and one-third fares to St. Paul, and from St. Paul via standard lines \$33.35; via differential lines \$31.35. On sale daily up to and including Sept. 30th, 1901. Tickets will require continuous passage in each direction. Final limit 15 days from date of sale.

PRETTIEST GAME
OF THE SEASON.

St. Cloud and Brainerd Put Up a
Great Article of Ball Yes-
terday Afternoon.

BRAINERD WON BY A LENGTH.

Finn's Sensational Catch in The
Center Field Was the Fea-
ture of the Game.

St. Cloud 1; Brainerd 2.

The greatest game ever played on
the local diamond was the one played
yesterday afternoon between the
locals and the St. Cloud team and the
fans and rooters were in their glory
for had they been seated on the
benches on the Boston diamond they
could not have seen a better exhibi-
tion.

Orth was in the box for the locals
and he pitched a fine game although
he was landed on for quite a few hits.
He kept them well scattered however,
so that they did not seem to count.
He struck out twelve men during
the game. The two Boyses, P. Boyle
on third and J. Boyle at short, both
played their usual good games al-
though they did not have many
chances. The hero of the game was
Finn in centre field, who made the
star fly catch of the season. May
for St. Cloud was at the bat and he
landed on the ball and sent it way up
in the air and it seemed as though it
would soar way out beyond the track
and score a home run. Finn made
for it but did not get to the ball so
he could get it with both hands but
he stuck out his left hand and got the
ball. It was a sensational catch.

And then to add to his glory in the
ninth inning, the last half, when the
score stood one to one, and St. Cloud
had had its last bat, if Brainerd could
score, with Connors on second base
and two men out, Finn made as
pretty a hit as could be asked for,
scoring Connors which made the
score 2 and 1. It was fever heat all
the way through. Spencer for Brain-
erd caught a good game and Connors
on first played a star game. The
boys all played a cracker jack game
and not an error was made in the
whole game.

For St. Cloud, Hansen pitched a
great game. He did not strike out
as many men as Orth but he played
a good game all the way through.
St. Cloud's team is a good one and
the boys, while they would like to
have won, need not feel ashamed of
the article of ball they put up yester-
day afternoon.

Wire was the first man up for St.
Cloud in the first inning. He got a
dinky liner out to Orth, who very
easily threw him out at first. Mur-
ray walked up to the pen and singled,
driving a daisy out over in the left
garden. He advanced to third but
did not score. Griebler and May
striking out. For Brainerd the first
man up was Peterson. He fanned
the air three times, as did also P.
Boyle, who followed him and the
boys began to think they were up
against the real thing. Connors
went out from Lacher to Vossberg.

In the second the first man up for
St. Cloud was Lacher. He struck out,
but Vossberg, who followed touched
the ball for a grounder out toward
the third bag. P. Boyle was there
and got the ball throwing him out at
first. Dominick struck out. For
Brainerd, Dessen came up and suc-
ceeded in going out by flying to
Lacher. J. Boyle went out from
Hansen to Vossberg and Finn fol-
lowed in his footsteps by going out
from May to Vossberg.

In the third Cronin, up for St.
Cloud, flew out to Murphy in center
field. Hansen came up and got a
nice hit, but Wire did not seem to
be able to connect with the ball and
was struck out. Murray made his
second clean hit but the drive did
not score Hansen, who by this time
had circled the diamond to the third
bag. With two men on bases and a
possibility that both Hansen and
Murray might score, Griebler flew
out to Connors and retired the side.
For Brainerd Murphy up drove out a
little liner and got to first safely.
Spencer struck out and Peterson's
foul pop-up was easily taken in by
Griebler.

Things were getting rather inter-
esting about the opening of the fourth
with not a score by either team.
May came up for St. Cloud and there
was blood in his eye. He landed on
the ball and it went soaring in the
air and looked like a sure home run.
Both Finn in center and Peterson in

right went after the ball and it nearly
took everyone's breath away to see
Finn stick out his left mit and catch
the ball with one hand. Lacher up
struck out and Vossberg flew out to
J. Boyle. For Brainerd P. Boyle
got to first safely but was thrown out
at second in trying to steal; Connors
flew out to Lacher and Dessen
went out from Lacher to Vossberg.

In the fifth Dominick the first man
up for St. Cloud fanned the air three
times, but Cronin came up and got a
beaut of a two-bagger. Hansen
went out from Dessen to Connors
and Wire struck out again. For
Brainerd J. Boyle went out from
Hansen to Vossberg. Finn struck
out and again Griebler behind the
bat for St. Cloud went after Mur-
phy's foul pop-up and landed it.

In the sixth Murray was the first
man up for St. Cloud and he singled.
Griebler struck a slow liner out to-
ward the third bag and Murray was
caught out at second on a force run.
May went out from J. Boyle to Con-
nors and Lacher flew out to Murphy.
Brainerd made the first score of the
game in the last of the sixth. Spencer
the first man up flew out to Voss-
berg, but Orth got a dinky liner out
toward Lacher, who muffed the ball
and on the error Orth reached first.
Peterson drew a little pop-up which
was neatly taken in by Vossberg at
first. P. Boyle made a timely two-
bagger scoring Orth. Connors went
out from Hansen to Vossberg.

It looked as though it might be a
shut out in the seventh. Vossberg
up for St. Cloud struck out, Domi-
nick singled but he did not get far,
for Spencer got Cronin's foul pop-up
and Hansen struck out. For Brain-
erd Dessen singled, J. Boyle popped
a little foul up and Griebler, like a
major, took it in again; Finn struck
out and Murphy went out from
Lacher to Vossberg.

In the first of the eighth, St. Cloud
did a stunt and succeeded in getting
in a score. Ware was the first man
up and he flew out to Peterson in
the right garden. Murray got an-
other single. Griebler went out
from Orth to Connors but May singled
and as Murray had succeeded in get-
ting around to second, it was an
easy matter for him to get home on
May's hit. Lacher flew out to
Murphy. This left the score one to
one at the beginning of the ninth in-
ning, Brainerd failing to score in the
last of the eighth. The Brainerd team
was great on popups and the first
one up, Spencer, was caught out by
Griebler. Orth singled, but Peter-
son flew out to Cronin and P. Boyle
struck out.

It was fever heat in the ninth and
it looked as though there would be
more than nine innings played. Orth
got on his pitching cloths in this in-
ning and the first two men up, Voss-
berg and Dominick for St. Cloud,
struck out. Cronin went out from
P. Boyle to Connors. Here is where
Brainerd won the game. They went
in on the last half of the ninth and
the score was one to one. Connors
got to first on an error by Lacher.
He got around to second, taking one
base on a balk by Hansen. Hansen
pitched good ball and it looked as
though another inning would be
played. He struck out Dessen and
J. Boyle. With two out, a man on
second, and the score one to one in
the last half of the ninth inning,
Finn was up to bat. He is not
known to be a strong batter but he
landed all right yesterday and rapped
as pretty a single out in the left
garden as could be asked for. This
brought in Connors and the game was
over. Brainerd did not get a third
man out in this inning as it was not
necessary.

The following is the summary of
the game:

St. Cloud	ab r h po a e
Wire, rf.....	4 0 0 0 0 0
Murray, 2b.....	4 1 4 1 0 1
Griebler, c.....	4 0 0 13 1 0

LOGGING TRAINS
IN SMASH UP.

A Rear End Collision on the M. &
I. Saturday Evening Near
Merrifield.

VERY LITTLE DAMAGE DONE.

Engineer DuBois' Engine is Ditched
But He Was Not In-
jured.

There was a rear end collision on
the Minnesota & International Sat-
urday evening about 5:30 o'clock re-
sulting in quite a bad smashup. The
accident occurred near Merrifield be-
tween the two switches near the sid-
ing.

Conductor Logan was in charge
of the train ahead and had topped on
account of a hot box. No one was
sent back to signal the other train
and it came down the pike and ram-
med into the train ahead with con-
siderable force.

Engineer DuBois was on the en-
gine of the rear train and when he
saw that it would be impossible for
him to stop the train he and his fire-
man jumped. The engine smashed
into the caboose of the head train
and it was badly demolished,
and in the melee that followed several
cars were thrown in the ditch, as
well as the engine of the rear train.
It made a great mixup for a time, as
both trains were loaded with logs.
No one was hurt.

General Manager Gemmell went
out yesterday morning with a
wrecker and the debris was cleared
and the engine raised before night.

There is a curve just before reach-
ing Merrifield and it is thought that
Engineer DuBois could not possibly
see the train ahead of him until he
was almost on top of it. Still on
the other hand it is claimed that the
conductor on the head train should
have signaled the train in the rear.
The excursion train which went
to Walker Saturday was behind the
wreck and it was feared in the city
that the train would be held up. It
was not, however, as the wreck oc-
curred between two switches and
the excursion train easily went
around.

ON THE DIAMOND.

This is the way the sporting editor
of the Aitkin Republican gets after
the boys of the home team in refer-
ring to the game played in this city
a week ago Sunday:

For nine innings the players of
Brainerd, encased in brand new uni-
forms, swung and swatted at his
shoots and curves like "weary wil-
lies" after "hand outs," and they did
manage to poke out one lone single
in twenty-eight times at bat.

The Tooze's beat Little Falls in a
game yesterday afternoon, the score
being 3 to 2.

Old Indian Gone.

The reported smallpox epidemic at
Big Lake on the Fon-du-Lac reserva-
tion is not as bad as has been suppos-
ed. A band of Mille Lac Indians
came up to Big Lake and soon after
their arrival one of the band took
sick with smallpox and died. Indian
Farmer Morgan at once ordered the
rest of the Mille Lac redskins back
to their reservation and to date no
new cases have developed at Big
Lake.

The Indian who died was named
Kah-we-dasey and was a well known
character among the Chippewas.
About forty years ago Kah-we-dasey
took part in a battle between his tribe
and the Sioux at a point near where
Taylor's Falls now stands. In this
battle Kah-we-dasey was shot through
the leg and through the mouth, but
although he survived the bullets of
his hereditary enemies, the Sioux, fell
a victim to smallpox.—Pine Knot.

F. W. Wilsey Promoted.

The following from the St. Paul
Globe will be of interest to many in
Brainerd:

"W. H. Phipps, land commissioner
for the Northern Pacific, who re-
turned from the west yesterday, an-
nounced that hereafter there would
be no Western land agent. Mr.
Cooper, who formerly held that posi-
tion, was recently made assistant to
the president, and in the future F.
W. Wilsey, at present Eastern Land
agent, will be made assistant land
commissioner, with jurisdiction over
the territory formerly looked after
by Mr. Cooper."

DAILY MARKETS.

WHEAT—General showers in the
northwest relieved apprehension as to
the further damage to growing wheat
in that section, though there still re-
mains a wide variation between dif-
ferent estimates of the yield. At the
recent high point, wheat had an ad-
vance of 9¢ from the bottom—a pretty
good rally for a crop of about 700-
000,000 bushels. If the drouth con-
tinues there may be sufficient damage
to the corn crop to require still
higher prices for both corn and
wheat.

CORN—At the best not more than
four-fifths of a crop can be secured
now, or, say, 1,600,000,000. The re-
mainder must be made up by sub-
stitution of other feedstuffs. The
question now is whether a price be-
tween 55¢ and 60¢ is high enough to
discount the situation by lessening
consumption and bringing in other
products as substitutes.

OATS—Weak and lower. The mar-
ket is influenced mainly by the pro-
spect of large receipts next week. Ele-
vator people and others who are bid-
ding for oats in the country are buy-
ing heavily every day now.

Provisions—Also considerably off,
pork particularly weak. No features
worth noting; market apparently
moves only in sympathy with the
others.

Chicago, July 29—Sept. wheat
opened at 69½ to 70. Closed at 67½.
Sept. corn opened at 53½ to 54; closed
at 52½. Sept. oats opened at 33½;
closed at 32½.

St. Paul Union Stock Yards.

SOUTH ST. PAUL, July 29.

HOGS—Sales ranged at \$5.40 to \$5.55.

CATTLE—Sales ranged at \$5.00 to \$5.40
for prime butcher steers, \$3.80 to \$4.25
for prime butcher cows and heifers, \$5.00 to
\$5.75 for choice veals, \$3.15 to \$3.40 for
choice feeders.

SHEEP—Sales ranged at \$4.00 to \$4.75
for choice butcher lambs, \$3.50 to \$4.00 for
fat wethers.

Chicago Union Stock Yards.

CHICAGO, July 29.

CATTLE—Sales ranged at \$5.35 to \$5.80
for good to prime steers, \$4.00 to \$5.25
for poor to medium, \$2.40 to \$4.30 for stockers
and feeders, \$2.75 to \$4.75 for cows and
heifers, \$4.00 to \$4.60 for Texas steers.

HOGS—Sales ranged at \$5.00 to \$5.95 for
mixed and butchers, \$5.90 to \$6.00 for
good to choice heavy, \$5.00 to \$5.85 for
rough heavy, \$3.65 to \$5.90 for light, \$5.80
to \$5.95 for bulk of sales.

SHEEP—Sales ranged at \$3.80 to \$4.25
for sheep, \$3.00 to \$5.35 for lambs.

Two Dead and Four Injured.

Dayton, O., July 29.—A gravel train
used in the construction of the trac-
tion line between this city and Troy,
for the Dayton and Northern Traction
company, was wrecked north of this
city. Two deaths and the serious in-
jury to four persons resulted.

Henry C. Payne Seriously Ill.

Berlin, July 28.—Henry C. Payne of
Berlin, July 29.—Henry C. Payne of
Wisconsin, a leading member of the
Republican national committee of the
United States, is seriously ill with
gout at the Frankfort hotel in this
city.

TELEGRAPHIC BREVITIES.

The Peruvian congress opened Sun-
day.

A bulletin regarding the condition
of Signor Francesco Crispi says the
heart trouble is increasing.

Count Leo Tolstoi, who has been
dangerously ill, continues to improve,
but his physicians are unable clearly
to diagnose his trouble.

Rear Admiral John Irwin, retired,
is dead at his residence in Washington
after an illness of several months, due
to a complication of diseases. He was
65 years of age.

Austria to Have Canal System.

Carl Bailey Hurst, the American con-
sul general at Vienna, writes to the
state department that Austria has just
adopted a measure for a system of
canals that is of far-reaching impor-
tance. He says this undertaking will
do more than anything yet devised to
promote the commerce of the country,
as it will not only bring the various
provinces into closer touch with each
other, but will afford the cheapest
freight connections with Germany and
Russia.

Chicago Grain and Provisions.

CHICAGO, July 29.

WHEAT—July 68½ to 69½, Sept. 69½ to 70½.

CORN—July 54½ to 55½, Sept. 55½ to 56½.

OATS—July 34½ to 35½, Sept. 34½ to 35½.

PORK—July 11.00, Sept. 11.15, Oct. 11.30, Jan. 11.70.

HEATING PLANTS.

Get your heating plants ready now during
the warm weather. We do this class of work
cheaply and promptly.

THE BIGGEST EVER.

The young men who are interested
in the organization of a city band are
out today soliciting funds. They
should receive a hearty support.
The committee that is out today is
composed of Walter Hinnman, Fred
Sanborn and James McGinnis. The
boys are going to buy their own in-
struments and give the city free con-
certs and it seems that as long as
they are willing to put in time and
money that they should be encour-
aged.

The following are the members of
the band and the instruments they
will play:
Cornet—Prof. Graham leader, Eddie
Boyle, Henry Tache, James McGin-
nis, Ed. Hoshal.
Clarinet—John Cummings, Wil-
liam Pippy.
Trombones—Henry Veigal, Fred
Sanborn, Andrew Anderson.
Alto—Henry Murphy, A. Hitting,
Walter Hinnman.
Baritone—Frank Slipp, H. Radke.
Tuba—V. G. Alquist.
Piccolo—Leslie Hill, Ed. Murphy.
Saxophone—Fred Tache, Joe
Midgley.
Drums—Ray Bean, Everett Doran.

The principal events of the day
will be the horse races, ladder climb-
ing contests etc. These events will
be pulled off with all the features at-
tendant on occasions of this kind.

FOUND—A roll of bills. Inquire of
A. S. Rolph, at Lajoie's barber shop.
LOST—Red covered DAILY DIS-
PATCH subscription book. Leave at
THE DISPATCH office.

PRETTIEST GAME OF THE SEASON.

St. Cloud and Brainerd Put Up a Great Article of Ball Yesterday Afternoon.

BRAINERD WON BY A LENGTH.

Finn's Sensational Catch in The Center Field Was the Feature of the Game.

St. Cloud 1; Brainerd 2.

The greatest game ever played on the local diamond was the one played yesterday afternoon between the locals and the St. Cloud team and the fans and rooters were in their glory for had they been seated on the benches on the Boston diamond they could not have seen a better exhibition.

Orth was in the box for the locals and he pitched a fine game although he was landed on for quite a few hits. He kept them well scattered however, so that they did not seem to count. He struck out twelve men during the game. The two Boyses, P. Boyle on third and J. Boyle at short, both played their usual good games although they did not have many chances. The hero of the game was Finn in center field, who made the star fly catch of the season. May for St. Cloud was at the bat and he landed on the ball and sent it way up in the air and it seemed as though it would soar way out beyond the track and score a home run. Finn made for it but did not get to the ball so he could get it with both hands but he stuck out his left hand and got the ball. It was a sensational catch. And then to add to his glory in the ninth inning, the last half, when the score stood one to one, and St. Cloud had had its last bat, if Brainerd could score, with Connors on second base and two men out, Finn made as pretty a hit as could be asked for, scoring Connors which made the score 2 and 1. It was fever heat all the way through. Spencer for Brainerd caught a good game and Connors on first played a star game. The boys all played a cracker jack game and not an error was made in the whole game.

For St. Cloud, Hansen pitched a great game. He did not strike out as many men as Orth but he played a good game all the way through. St. Cloud's team is a good one and the boys, while they would like to have won, need not feel ashamed of the article of ball they put up yesterday afternoon.

Wire was the first man up for St. Cloud in the first inning. He got a dinky liner out to Orth, who very easily threw him out at first. Murray walked up to the pen and singled, driving a daisy out over in the left garden. He advanced to third but did not score. Griebler and May striking out. For Brainerd the first man up was Peterson. He fanned the air three times, as did also P. Boyle, who followed him and the boys began to think they were up against the real thing. Connors went out from Lacher to Vossberg.

In the second the first man up for St. Cloud was Lacher. He struck out, but Vossberg, who followed touched the ball for a grounder out toward the third bag. P. Boyle was there and got the ball throwing him out at first. Dominick struck out. For Brainerd, Dessen came up and succeeded in going out by flying to Lacher. J. Boyle went out from Hansen to Vossberg and Finn followed in his footsteps by going out from May to Vossberg.

In the third Cronin, up for St. Cloud, flew out to Murphy in center field. Hansen came up and got a nice hit, but Wire did not seem to be able to connect with the ball and was struck out. Murray made his second clean hit but the drive did not score Hansen, who by this time had circled the diamond to the third bag. With two men on bases and a possibility that both Hansen and Murray might score, Griebler flew out to Connors and retired the side. For Brainerd Murphy up drove out a little liner and got to first safely. Spencer struck out and Peterson's foul pop-up was easily taken in by Griebler.

Things were getting rather interesting about the opening of the fourth with not a score by either team. May came up for St. Cloud and there was blood in his eye. He landed on the ball and it went soaring in the air and looked like a sure home run. Both Finn in center and Peterson in

right went after the ball and it nearly took everyone's breath away to see Finn stick out his left mit and catch the ball with one hand. Lacher up struck out and Vossberg flew out to J. Boyle. For Brainerd P. Boyle got to first safely but was thrown out at second in trying to steal; Connors flew out to Lacher and Dessen went out from Lacher to Vossberg.

In the fifth Dominick the first man up for St. Cloud fanned the air three times, but Cronin came up and got a beaut of a two-bagger. Hansen went out from Dessen to Connors and Wire struck out again. For Brainerd J. Boyle went out from Hansen to Vossberg. Finn struck out and again Griebler behind the bat for St. Cloud went after Murphy's foul pop-up and landed it.

In the sixth Murray was the first man up for St. Cloud and he singled. Griebler struck a slow liner out toward the third bag and Murray was caught out at second on a force run. May went out from J. Boyle to Connors and Lacher flew out to Murphy. Brainerd made the first score of the game in the last of the sixth. Spencer the first man up flew out to Vossberg, but Orth got a dinky liner out toward Lacher, who muffed the ball and on the error Orth reached first. Peterson drew a little pop-up which was neatly taken in by Vossberg at first. P. Boyle made a timely two-bagger scoring Orth. Connors went out from Hansen to Vossberg.

It looked as though it might be a shut out in the seventh. Vossberg up for St. Cloud struck out, Dominick singled but he did not get far, for Spencer got Cronin's foul pop-up and Hansen struck out. For Brainerd Dessen singled, J. Boyle popped a little foul up and Griebler, like a major, took it in again; Finn struck out and Murphy went out from Lacher to Vossberg.

In the first of the eighth, St. Cloud did a stunt and succeeded in getting in a score. Wire was the first man up and he flew out to Peterson in the right garden. Murray got another single. Griebler went out from Orth to Connors but May singled and as Murray had succeeded in getting around to second, it was an easy matter for him to get home on May's hit. Lacher flew out to Murphy. This left the score one to one at the beginning of the ninth inning, Brainerd failing to score in the last of the eighth. The Brainerd team was great on popups and the first one up, Spencer, was caught out by Griebler. Orth singled, but Peterson flew out to Cronin and P. Boyle struck out.

It was fever heat in the ninth and it looked as though there would be more than nine innings played. Orth got on his pitching cloths in this inning and the first two men up, Vossberg and Dominick for St. Cloud, struck out. Cronin went out from P. Boyle to Connors. Here is where Brainerd won the game. They went in on the last half of the ninth and the score was one to one. Connors got to first on an error by Lacher. He got around to second, taking one base on a balk by Hansen. Hansen pitched good ball and it looked as though another inning would be played. He struck out Dessen and J. Boyle. With two out, a man on second, and the score one to one in the last half of the ninth inning, Finn was up to bat. He is not known to be a strong batter but he landed all right yesterday and rapped as pretty a single out in the left garden as could be asked for. This brought in Connors and the game was over. Brainerd did not get a third man out in this inning as it was not necessary.

The following is the summary of the game:

	St. Cloud	ab	r	h	po	a	e
Wire, rf.	4	0	0	0	0	0	0
Murray, 2b	4	1	4	1	0	1	0
Griebler, c.	4	0	0	13	1	0	0
May, 3b.	4	0	1	0	1	0	0
Lacher, ss	4	0	0	1	3	2	0

LOGGING TRAINS IN SMASH UP.

A Rear End Collision on the M. & I. Saturday Evening Near Merrifield.

VERY LITTLE DAMAGE DONE.

Engineer DuBois' Engine is Ditched But He Was Not Injured.

There was a rear end collision on the Minnesota & International Saturday evening about 5:30 o'clock resulting in quite a bad smashup. The accident occurred near Merrifield between the two switches near the siding.

Conductor Logan was in charge of the train ahead and had topped on account of a hot box. No one was sent back to signal the other train and it came down the pike and rammed into the train ahead with considerable force.

Engineer DuBois was on the engine of the rear train and when he saw that it would be impossible for him to stop the train he and his fireman jumped. The engine smashed into the caboose of the head train and it was badly demolished, and in the melee that followed several cars were thrown in the ditch, as well as the engine of the rear train. It made a great mixup for a time, as both trains were loaded with logs. No one was hurt.

General Manager Gemmell went out yesterday morning with a wrecker and the debris was cleared and the engine raised before night.

There is a curve just before reaching Merrifield and it is thought that Engineer DuBois could not possibly see the train ahead of him until he was almost on top of it. Still on the other hand it is claimed that the conductor on the head train should have signaled the train in the rear.

The excursion train which went to Walker Saturday was behind the wreck and it was feared in the city that the train would be held up. It was not, however, as the wreck occurred between two switches and the excursion train easily went around.

ON THE DIAMOND.

This is the way the sporting editor of the Aitkin Republican gets after the boys of the home team in referring to the game played in this city a week ago Sunday:

For nine innings the players of Brainerd, encased in brand new uniforms, swung and swatted at his shoots and curves like "weary wilies" after "band outs," and they did manage to poke out one lone single in twenty-eight times at bat.

The Tooze's beat Little Falls in a game yesterday afternoon, the score being 3 to 2.

Old Indian Gone.

The reported smallpox epidemic at Big Lake on the Fon-du-Lac reservation is not as bad as has been supposed. A band of Mille Lac Indians came up to Big Lake and soon after their arrival one of the band took sick with smallpox and died. Indian Farmer Morgan at once ordered the rest of the Mille Lac redskins back to their reservation and to date no new cases have developed at Big Lake.

The Indian who died was named Kah-we-dasey and was a well known character among the Chippewas. About forty years ago Kah-we-dasey took part in a battle between his tribe and the Sioux at a point near where Taylor's Falls now stands. In this battle Kah-we-dasey was shot through the leg and through the mouth, but although he survived the bullets of his hereditary enemies, the Sioux, fell a victim to smallpox.—Pine Knot.

PRETTIEST GAME OF THE SEASON.

St. Cloud and Brainerd Put Up a
Great Article of Ball Yes-
terday Afternoon.

BRAINERD WON BY A LENGTH.

Finn's Sensational Catch in The
Center Field Was the Fea-
ture of the Game.

St. Cloud 1; Brainerd 2.

The greatest game ever played on
the local diamond was the one played
yesterday afternoon between the
locals and the St. Cloud team and the
fans and rooters were in their glory
for had they been seated on the
benches on the Boston diamond they
could not have seen a better exhibi-
tion.

Orth was in the box for the locals
and he pitched a fine game although
he was landed on for quite a few hits.
He kept them well scattered however,
so that they did not seem to count.
He struck out twelve men during
the game. The two Boyles, P. Boyle
on third and J. Boyle at short, both
played their usual good games al-
though they did not have many
chances. The hero of the game was
Finn in centre field, who made the
star fly catch of the season. May
for St. Cloud was at the bat and he
landed on the ball and sent it way up
in the air and it seemed as though it
would soar way out beyond the track
and score a home run. Finn made
for it but did not get to the ball so
he could get it with both hands but
he stuck out his left hand and got the
ball. It was a sensational catch.
And then to add to his glory in the
ninth inning, the last half, when the
score stood one to one, and St. Cloud
had had its last bat, if Brainerd could
score, with Connors on second base
and two men out, Finn made as
pretty a hit as could be asked for,
scoring Connors which made the
score 2 and 1. It was fever heat all
the way through. Spencer for Brainerd
caught a good game and Connors
on first played a star game. The
boys all played a cracker jack game
and not an error was made in the
whole game.

For St. Cloud, Hansen pitched a
great game. He did not strike out
as many men as Orth but he played
a good game all the way through.
St. Cloud's team is a good one and
the boys, while they would like to
have won, need not feel ashamed of
the article of ball they put up yester-
day afternoon.

Wire was the first man up for St.
Cloud in the first inning. He got a
dinky liner out to Orth, who very
easily threw him out at first. Mur-
ray walked up to the pen and singled,
driving a daisy out over in the left
garden. He advanced to third but
did not score. Griebler and May
striking out. For Brainerd the first
man up was Peterson. He fanned
the air three times, as did also P.
Boyle, who followed him and the
boys began to think they were up
against the real thing. Connors
went out from Lacher to Vossberg.

In the second the first man up for
St. Cloud was Lacher. He struck out,
but Vossberg, who followed touched
the ball for a grounder out toward
the third bag. P. Boyle was there
and got the ball throwing him out at
first. Dominick struck out. For
Brainerd, Drensen came up and suc-
ceeded in going out by flying to
Lacher. J. Boyle went out from
Hansen to Vossberg and Finn fol-
lowed in his footsteps by going out
from May to Vossberg.

In the third Cronin, up for St.
Cloud, flied out to Murphy in center
field. Hansen came up and got a
nice hit, but Wire did not seem to
be able to connect with the ball and
was struck out. Murray made his
second clean hit but the drive did
not score Hansen, who by this time
had circled the diamond to the third
bag. With two men on bases and a
possibility that both Hansen and
Murray might score, Griebler flied
out to Connors and retired the side.
For Brainerd, Murphy up drove out
a little liner and got to first safely.
Spencer struck out and Peterson's
foul pop-up was easily taken in by
Griebler.

Things were getting rather inter-
esting about the opening of the fourth
with not a score by either team.
May came up for St. Cloud and there
was blood in his eye. He landed on
the ball and it went soaring in the
air and looked like a sure home run.
Both Finn in center and Peterson in

right went after the ball and it nearly
took everyone's breath away to see
Finn stick out his left mit and catch
the ball with one hand. Lacher up
struck out and Vossberg flied out to
J. Boyle. For Brainerd P. Boyle
got to first safely but was thrown out
at second in trying to steal; Connors
flied out to Lacher and Drensen
went out from Lacher to Vossberg.

In the fifth Dominick the first man
up for St. Cloud fanned the air three
times, but Cronin came up and got a
beaut of a two-bagger. Hansen
went out from Drensen to Connors
and Wire struck out again. For
Brainerd J. Boyle went out from
Hansen to Vossberg. Finn struck
out and again Griebler behind the
bat for St. Cloud went after Mur-
phy's foul pop-up and landed it.

In the sixth Murray was the first
man up for St. Cloud and he singled.
Griebler struck a slow liner out to-
ward the third bag and Murray was
caught out at second on a force run.
May went out from J. Boyle to Con-
nors and Lacher flied out to Murphy.
Brainerd made the first score of the
game in the last of the sixth. Spencer
the first man up flied out to Voss-
berg, but Orth got a dinky liner out
toward Lacher, who muffed the ball
and on the error Orth reached first.
Peterson drew a little pop-up which
was neatly taken in by Vossberg at
first. P. Boyle made a timely two-
bagger scoring Orth. Connors went
out from Hansen to Vossberg.

It looked as though it might be a
shut out in the seventh. Vossberg
up for St. Cloud struck out, Domi-
nick singled but he did not get far,
for Spencer got Cronin's foul pop-up
and Hansen struck out. For Brainerd
Drensen singled, J. Boyle popped
a little foul up and Griebler, like a
major, took it in again; Finn struck
out and Murphy went out from
Lacher to Vossberg.

In the first of the eighth, St. Cloud
did a stunt and succeeded in getting
in a score. Ware was the first man
up and he flied out to Peterson in
the right garden. Murray got an-
other single. Griebler went out
from Orth to Connors but May singled
and as Murray had succeeded in get-
ting around to second, it was an
easy matter for him to get home on
May's hit. Lacher flied out to
Murphy. This left the score one to
one at the beginning of the ninth in-
ning, Brainerd failing to score in the
last of the eighth. The Brainerd team
was great on popups and the first
one up, Spencer, was caught out by
Griebler. Orth singled, but Peter-
son flied out to Cronin and P. Boyle
struck out.

It was fever heat in the ninth and
it looked as though there would be
more than nine innings played. Orth
got on his pitching cloths in this in-
ning and the first two men up, Voss-
berg and Dominick for St. Cloud,
struck out. Cronin went out from
P. Boyle to Connors. Here is where
Brainerd won the game. They went
in on the last half of the ninth and
the score was one to one. Connors
got to first on an error by Lacher.
He got around to second, taking one
base on a balk by Hansen. Hansen
pitched good ball and it looked as
though another inning would be
played. He struck out Drensen and
J. Boyle. With two out, a man on
second, and the score one to one in
the last half of the ninth inning,
Finn was up to bat. He is not
known to be a strong batter but he
landed all right yesterday and rapped
as pretty a single out in the left
garden as could be asked for. This
brought in Connors and the game was
over. Brainerd did not get a third
man out in this inning as it was not
necessary.

The following is the summary of
the game:

St. Cloud	ab r h po a e	
Wire, rf.....	4 0 0 0 0 0	
Murray, 2b.....	4 1 4 1 0 1	
Griebler, c.....	4 0 0 13 1 0	
May, 3b.....	4 0 1 0 1 0	
Lacher, ss.....	4 0 0 1 3 2	
Vossberg, lb.....	4 0 0 0 9 0 1

LOGGING TRAINS IN SMASH UP.

A Rear End Collision on the M. &
I. Saturday Evening Near
Merrifield.

VERY LITTLE DAMAGE DONE.

Engineer DuBois' Engine is Ditched
But He Was Not In-
jured.

There was a rear end collision on
the Minnesota & International Sat-
urday evening about 5:30 o'clock re-
sulting in quite a bad smashup. The
accident occurred near Merrifield be-
tween the two switches near the sid-
ing.

Conductor Logan was in charge
of the train ahead and had topped on
account of a hot box. No one was
sent back to signal the other train
and it came down the pike and ram-
med into the train ahead with con-
siderable force.

Engineer DuBois was on the en-
gine of the rear train and when he
saw that it would be impossible for
him to stop the train he and his fire-
man jumped. The engine smashed
into the caboose of the head train
and it was badly demolished, and
in the melee that followed several
cars were thrown in the ditch, as
well as the engine of the rear train.
It made a great mixup for a time, as
both trains were loaded with logs.
No one was hurt.

General Manager Gemmell went
out yesterday morning with a
wrecker and the debris was cleared
and the engine raised before night.

There is a curve just before reach-
ing Merrifield and it is thought that
Engineer DuBois could not possibly
see the train ahead of him until he
was almost on top of it. Still on
the other hand it is claimed that the
conductor on the head train should
have signaled the train in the rear.

The excursion train which went
to Walker Saturday was behind the
wreck and it was feared in the city
that the train would be held up. It
was not, however, as the wreck oc-
curred between two switches and
the excursion train easily went
around.

ON THE DIAMOND.

This is the way the sporting editor
of the Aitkin Republican gets after
the boys of the home team in refer-
ring to the game played in this city
a week ago Sunday:

For nine innings the players of
Brainerd, encased in brand new uni-
forms, swung and swatted at his
shoots and curves like "weary wil-
lies" after "hand outs," and they did
manage to poke out one lone single
in twenty-eight times at bat.

The Tooze's beat Little Falls in a
game yesterday afternoon, the score
being 3 to 2.

Old Indian Gone.

The reported smallpox epidemic at
Big Lake on the Fon-du-Lac reserva-
tion is not as bad as has been suppos-
ed. A band of Mille Lac Indians
came up to Big Lake and soon after
their arrival one of the band took
sick with smallpox and died. Indian
Farmer Morgan at once ordered the
rest of the Mille Lac redskins back
to their reservation and to date no
new cases have developed at Big
Lake.

The Indian who died was named
Kah-we-dasy and was a well known
character among the Chippewas.
About forty years ago Kah-we-dasy
took part in a battle between his tribe
and the Sioux at a point near where
Taylor's Falls now stands. In this
battle Kah-we-dasy was shot through
the leg and through the mouth, but
although he survived the bullets of
his hereditary enemies, the Sioux, fell
a victim to smallpox.—Pine Knot.

F. W. Wilsey Promoted.

The following from the St. Paul
Globe will be of interest to many in
Brainerd:

"W. H. Phipps, land commissioner
for the Northern Pacific, who re-
turned from the west yesterday, an-
nounced that hereafter there would
be no Western land agent. Mr.
Cooper, who formerly held that posi-
tion, was recently made assistant to
the president, and in the future F.
W. Wilsey, at present Eastern Land
agent, will be made assistant land
commissioner, with jurisdiction over
the territory formerly looked after
by Mr. Cooper."

DAILY MARKETS.

WHEAT—General showers in the
northwest relieved apprehension as to
the further damage to growing wheat
in that section, though there still re-
mains a wide variation between dif-
ferent estimates of the yield. At the
recent high point, wheat had an ad-
vance of 9¢ from the bottom—a pretty
good rally for a crop of about 700-
000,000 bushels. If the drouth con-
tinues there may be sufficient damage
to the corn crop to require still
higher prices for both corn and
wheat.

CORN—At the best not more than
four-fifths of a crop can be secured
now, or, say, 1,600,000,000. The re-
mainder must be made up by sub-
stitution of other feedstuffs. The
question now is whether a price be-
tween 55¢ and 60¢ is high enough to
discount the situation by lessening
consumption and bringing in other
products as substitutes.

OATS—Weak and lower. The mar-
ket is influenced mainly by the pros-
pect of large receipts next week. Ele-
vator people and others who are bid-
ding for oats in the country are buy-
ing heavily every day now.

PROVISIONS—Also considerably off,
pork particularly weak. No features
worth noting; market apparently
moves only in sympathy with the
others.

Chicago, July 29.—Sept. wheat
opened at 69½ to 71. Closed at 67½.
Sept. corn opened at 53½ to 54½; closed
at 52½. Sept. oats opened at 33½;
closed at 32½.

St. Paul Union Stock Yards.

SOUTH ST. PAUL, July 29.

HOGS—Sales ranged at \$5.40 to \$5.85.
CATTLE—Sales ranged at \$5.00 to \$5.40
for prime butcher steers, \$3.80 to \$4.25
for prime butcher cows and heifers, \$5.00 to
\$5.75 for choice veals, \$3.10 to \$3.40 for
choice feeders.

SHEEP—Sales ranged at \$4.00 to \$4.75
for choice butcher lambs, \$3.50 to \$4.00 for
fat wethers.

Chicago Union Stock Yards.

CHICAGO, July 29.

CATTLE—Sales ranged at \$5.00 to \$5.80
for good to prime steers, \$4.00 to \$5.00 for
poor to medium, \$2.40 to \$4.30 for stockers
and feeders, \$2.75 to \$4.75 for cows and
heifers, \$3.00 to \$4.50 for Texas steers.

HOGS—Sales ranged at \$5.00 to \$5.95 for
mixed and butchers, \$5.00 to \$6.00 for
good to choice heavy, \$5.00 to \$5.85 for
rough heavy, \$5.05 to \$5.90 for light, \$5.80
to \$5.95 for bulk of sales.

SHEEP—Sales ranged at \$3.80 to \$4.25
for sheep, \$3.00 to \$3.35 for lambs.

Two Dead and Four Injured.

Dayton, O., July 29.—A gravel train
used in the construction of the trac-
tion line between this city and Troy,
for the Dayton and Northern Traction
company, was wrecked north of this
city. Two deaths and the serious in-
jury to four persons resulted.

Henry C. Payne Seriously Ill.

Berlin, July 28.—Henry C. Payne of
Berlin, July 29.—Henry C. Payne of
Wisconsin, a leading member of the
Republican national committee of the
United States, is seriously ill with
gout at the Frankfurt hotel in this
city.

TELEGRAPHIC BREVITIES.

The Peruvian congress opened Sun-
day.

A bulletin regarding the condition
of Signor Francesco Crispi says the
heart trouble is increasing.

Count Leo Tolstol, who has been
dangerously ill, continues to improve,
but his physicians are unable clearly
to diagnose his trouble.

Rear Admiral John Irwin, retired,
is dead at his residence in Washington
after an illness of several months, due
to a complication of diseases. He was
69 years of age.

Austria to Have Canal System.

Carl Bailey Hurst, the American con-
sul general at Vienna, writes to the
state department that Austria has just
adopted a measure for a system of
canals that is of far-reaching impor-
tance. He says this undertaking will
do more than anything yet devised to
promote the commerce of the country,
as it will not only bring the various
provinces into closer touch with each
other, but will afford the cheapest
freight connections with Germany and
Russia.

Chicago Grain and Provisions.

CHICAGO, July 29.

WHEAT—July 29½ to 30½, Sept. 60½ to 61½,
Oct. 70½.

CORN—July 54½ to 55½, Sept. 55½ to 56½,
Oct. 61½ to 62½.

OATS—July 54½ to 55½, Sept. 55½ to 56½,
Oct. 61½ to 62½.

POULTRY—Dressed chickens 7½ to 8½,
turkey 6 to 6½.

BUTTER—Creamery 14½ to 15½, dairy
13 to 17½.

The Marine Band.

The young men who are interested
in the organization of a city band are
out today soliciting funds. They
should receive a hearty support.
The committee that is out today is
composed of Walter Hinnman, Fred
Sanborn and James McGinnis. The
boys are going to buy their own in-
struments and give the city free con-
certs and it seems that as long as
they are willing to put in time and
money that they should be encour-
aged.

The following are the members of
the band and the instruments they
will play:
Cornet—Prof. Grahamleader, Eddie
Boyle, Henry Tache, James McGin-
nis, Ed. Hoshal.
Clarinet—John Cummings, Wil-
liam Pippy.
Trombones—Henry Veigal, Fred
Sanborn, Andrew Anderson.
Alto—Henry Murphy, A. Hitting.
Tuba—V. G. Alquist.
Piccolo—Leslie Hill, Ed. Murphy.
Saxophone—Fred Tache, Joe
Midgley.
Drums—Ray Bean, Everett Doran.

MAY END THE STRIKE

UNION LEADERS AND STEEL MANAGERS HAVE A MEETING IN NEW YORK.

TO RESUME NEGOTIATIONS

Basis for Such a Conference Arrived at—Almost Secrecy Maintained Concerning the Matter at Present—Believed That Before the End of the Week the Mills Will Be Running Again.

Pittsburg, July 29.—The strike of the steel and tin workers of the Amalgamated association against the United States Steel corporation will probably be settled this week. A conference held in New York between the officials of the United States Steel corporation and President T. J. Shaffer and Secretary John Williams of the workers' organization, has resulted in paving the way for a renewal of negotiations between the conflicting interests.

It is said that a basis for such a conference has been arrived at. This basis is still locked up in the minds of the officials of the two organizations and will not be divulged until after this week. If the basis shall prove satisfactory to the general executive committee of the Amalgamated association, the conference between the association and the manufacturers will proceed at once. If, on the other hand, the basis is not what the Amalgamated association will permit to be considered as negotiable grounds, the strike will be continued with the same vigor as at present, and with indefinite time for its ending.

President Shaffer and Secretary Williams of the Amalgamated association returned from New York during the day. They had spent many hours in conference with the leading officials of the steel trust, had evaded all New York reporters and came home with hopes for an early ending of the present contest. In Pittsburg little was known of the conference, but the greatest interest in the outcome was shown among the manufacturers.

Secretary Williams was found at his home. He promptly admitted that he had been with President Shaffer in New York and seen J. P. Morgan, but as to what had taken place there he said with firmness that he

was pledged to secrecy and could not talk. It is learned here that a meeting of the executive board has been called for Tuesday.

Additional information regarding the New York meeting of the industrial leaders was afterward gathered from reliable sources. It was stated that the meeting between the Pittsburg men and Mr. Morgan lasted about five hours. During the conference President C. M. Schwab and Judge E. H. Gary were present most of the time. Another conferee was Mr. Dawkins, one of Mr. Morgan's partners. The Amalgamated officials talked almost entirely to Mr. Morgan and President Schwab. They went over the grounds on which the strike began and discussed a settlement basis. After getting the views of the steel trust officials and giving theirs in return, Mr. Shaffer and Mr. Williams left the office and spent their time away from public places, avoiding hotels and taking their meals in restaurants.

It is believed that before the end of the week the mills will all be ready to run again, providing repairs shall be completed that have been undertaken since the strike began. Should the whole project fall of coming to an amicable end, however, the fight promises to be more bitter than ever. For this reason, those back of the present negotiations are extremely anxious to have everything kept as quiet as possible and that nothing should be made public regarding the basis for a conference, until it had been accepted by both sides.

NON-UNION MEN SCARCE.

Chicago Foundrymen Cannot Resume Operations as Planned.

Chicago, July 29.—Members of the National Foundrymen's association have been forced to abandon their plan of opening their foundries in the morning. The inability to secure a sufficient number of non-union men to take the places of the striking iron molders is responsible for the change in plans.

At a conference of leading foundrymen it was discovered that it would be impossible to get enough men to carry on the work in the various shops in the city. Instead of 600 men, who were expected to arrive in the city, less than 50 had been secured by the agents of the manufacturers.

FAVORS JUSTICE MONKS.

Senator Fairbanks Will Recommend Him to Succeed Judge Woods.

Indianapolis, Ind., July 29.—The Sentinel says: It is reported here that Senator Fairbanks will recommend Chief Justice L. J. Monks of the Indiana supreme court as the successor of Judge Woods, deceased, of the United States circuit court of the district composed of Indiana, Illinois and Wisconsin. Judge Monks is 56 years of age and has been on the bench 28 years. Senator Fairbanks has recently returned from a visit to President McKinley at Canton, in company with Attorney General Knox.

FREE TRADE WITH PORTO RICO

No Official Knowledge of It at New York Customhouse.

New York, July 29.—The steamship Ponce from San Juan, Porto Rico, docked in Brooklyn during the afternoon. As she steamed up the bay the customs tug came alongside and two officers boarded the Ponce and took the passengers' declarations. As soon as the Ponce docked customhouse inspectors examined the baggage of the passengers, 89 in number. All cigars and cigarettes were seized and the owners were told to "come back tomorrow for them." Among the passengers was J. R. Garrison, auditor of Porto Rico. He informed the inspectors that according to the president's proclamation free trade now exists between the United States and Porto Rico. The inspectors claimed that they had no official information to that effect and Mr. Garrison complied with the order to dump the contents of his dozen trunks on the pier. The baggage of all the other passengers was similarly inspected.

After this general overhauling of baggage a telephone message was received to seize only cigarettes in lots of over 400. Passengers who did not have that quantity were let out. One, however, who had 450 cigars, was required to turn them over and told to come around and pay for the internal revenue stamps.

The inspectors claim that while they knew free trade now exists between this country and Porto Rico they do not know it officially and that it will be several days before the new taken from the water.

NEW MAINE LAUNCHED.

Thousands See the Battleship Take Her Initial Dip.

Philadelphia, July 29.—The battleship Maine, designed to be bigger, stronger and faster than her namesake, whose shapeless mass still lies in the harbor of Havana, was successfully launched from the yards of the William Cramp Ship and Engine Building company Saturday. One of the largest crowds that has ever witnessed a warship leave the ways at Cramps yards was on hand and patriotism ran wild as the ship left her cradle.

Kensington, where the shipyards are located, took a holiday and attended the launching. Thousands of persons from other parts of the city were on hand and as the yard was thrown open to the public, every vantage point in the confine and space swarmed with humanity.

The state of Maine was officially represented by Governor Hill and members of his staff. From Washington came Rear Admirals Bradford, Melville and Walker, Lieutenant Commander Bailey, Captain Leary, former governor of Guam, and a number of bureau chiefs of the navy department.

The ceremony of christening the ship was performed by Miss Mary Preble Anderson of Portland, Me., a descendant of the Preble family that has added fame to the naval honors of the country.

WISCONSIN DAY AT BUFFALO.

State Building Formally Given Over to Exposition Managers.

Buffalo, N. Y., July 29.—A delightful morning ushered in Wisconsin day at the Pan-American exposition. Formal exercises were held when the handsome state building, the first state structure to be entirely finished and the first to be thrown open to the public some weeks ago, was given over to the exposition management. The ceremonies were held in the Temple of Music, opening with music by the Havana (Cuba) municipal band. Willet M. Spooner followed with an address and formally transferred the building to Director General Buchanan. Miss Annie Peat played an organ selection. Addresses were also made by Lieutenant Governor Jesse K. Stone of Wisconsin, D. N. Lockwood, president of the New York state commission, and Director General W. L. Buchanan of the Pan-American exposition.

COLOMBIAN REBELLION.

Insurgents in Large Numbers Operating Around Panama.

Kingston, Jamaica, July 29.—News-paper reports received here from Panama assert that the insurgents are operating in large numbers in that vicinity and an order has been issued by the government calling upon the citizens to concentrate in order to repel attacks and to protect property. Panama is guarded from the sea by a gunboat. According to the same sources of information the government is exercising the strictest precautions to prevent news of developments leaking out.

DASH FOR LIBERTY.

Condemned Colored Murderer Killed in Attempting to Escape.

Monticello, Fla., July 29.—Simon Williams, colored, condemned to death for the murder of Deputy Sheriff Hawkins and sentenced to hang Aug. 8, made a dash for liberty during the afternoon. After a desperate fight, in which Deputy Sheriff R. H. Kilpatrick was badly wounded by Williams with his own pistol, the negro fled but was shot to death. Officer Kilpatrick's wound is in the groin. His condition is critical.

Mad Mullah Routed.

Aden, Arabia, July 29.—In a fight between the Mad Mullah and the British July 17, the former was routed, losing 70 killed. The British casualties were Lieutenant Fredericks and 12 men killed and Lieutenant Dickson and 12 men wounded.

KOCH THEORY DOUBTED

Views of Agricultural Department Officials on Tuberculosis.

EXHAUSTIVE TESTS CONDUCTED.

Officials Believe Disease Can Be Transmitted to Human Beings From Animals—Cases on Which They Base That Belief—Will Wait to Hear More of Koch's Claim.

Dr. Koch's paper on tuberculosis read before the British congress in London has aroused the interest of scientists at the agricultural department, but it is not accepted there as conclusive evidence, says the Washington correspondent of the New York Commercial Advertiser. The department will make no change in its stringent rules to prevent the sale of animals affected with tuberculosis, and the federal inspectors at the meat packing houses will follow their work as before.

So far, of course, the department scientists have but the meager cable reports from which to judge of Dr. Koch's claims, but the doctor's assertions are contrary to all the traditions of the department. The department has been studying tuberculosis for the past 20 years and has conducted exhaustive experiments. While it has been impossible to experiment so far as to deliberately inoculate a human with the animal tuberculosis, there have been cases under the eyes of the department where such an accident has resulted fatally. The most recent case is reported by an Omaha physician. A man had an eruption on his arm. He covered the sores with cream. Animal tuberculosis of a virulent type resulted, and an investigation disclosed the fact that the cow from which the cream had been obtained had had tuberculosis.

Another case is reported from the car shops at Philadelphia. While repairing a cattle car a workman was wounded by a silver. Tuberculosis followed, and the man died. Other cases are mentioned by the department's scientists where veterinarians conducting the post mortems on animals were pricked with the instruments used on the subject, and animal tuberculosis followed which could be traced directly to the puncture made by the instrument on hand or body. These cases are pointed out as a strong indication that the department has been correct in its past belief that the animal tuberculosis could be transmitted to the human body.

On the other hand, the department has been able more freely to conduct its experiments by inoculating an animal with the human tuberculosis. The human tuberculosis is found to be much less virulent than the animal. It has slight effect on the animal and is much less virulent from human to human than from animal to human.

These observations and results are cited by the scientists of the department solely as a ground upon which to base their belief. There is no attempt to refute the assertions of Dr. Koch. Dr. D. E. Salmon, the chief of the bureau of animal industry of the agricultural department, says that the reports cabled to the United States of Dr. Koch's paper are wholly inadequate for the obtaining of a clear idea of the German scientist's claims. When the full paper is received and the experiments on which it is based more clearly understood, the department will be in a position to discuss the discovery with more authority. It will then take the matter up and, so far as possible, conduct experiments to demonstrate the truth of Dr. Koch's investigations.

Among scientists in Washington Dr. Koch has become something of a discredited prophet. Of the many discoveries he has reported during late years they say the majority have been more interesting than practical, and it is because of this greatly that the scientists about Washington will rely more on their own experiments than on the mere statement of Dr. Koch.

One of the eminent scientists of the agricultural department said the other day that the refutation of an existing result was not a discovery and that Dr. Koch would have to make more than the mere statement that so and so is true before he could lay claim to a discovery in medical science.

When the Circus Comes.

There's a sort of lazy feeling
That is spreading everywhere,
Making daily tasks so irksome
That they're mighty hard to bear,
And the people long so busy
To their work can't settle down,
For all catch the leading fever
When the circus comes to town.

To the street all eyes are turning
Every time a crowd appears,
And each sound off in the distance
Causes pricking up of ears.
But at last there's end of waiting,
From each face has fled the frown,
For all rush to see the pagant
When the circus comes to town.

Fathers, mothers, aunts and uncles
Get the little ones in tow,
All declaring that the children
Must go down and see the show.
Even to babies they are pointing
Out the beasts of great renown,
For the old excuse they're working
When the circus comes to town.

But 'tis always plainly noticed
That the grown ups no time waste;
Soon the savage beasts they're leaving
And right to the main tent haste,
For they want to see the riders,
Every abster and each clown,
And their money's worth they're getting
When the circus comes to town.

Some are staying for the concert
That has been so highly praised;
Some are taking in the side shows,
There to be again amazed,
And the jennies and peanuts
Are by gillions going down,
For the populace gets reckless
When the circus comes to town.

—Pittsburg Chronicle-Telegraph.

ADMIRE THE BOERS.

Baden-Powell Says They Have Been Deceived by Their Leaders.

Southampton, July 29.—In an interview General Baden-Powell said he did not care to prophesy the end of the war. It was easy in such a country for small roving bands to elude defeat or capture. Nevertheless, he was inclined to think that unless there is an earlier dramatic ending the Boer resistance will have been completely crushed in three or four months from now.

General Baden-Powell spoke with respect and admiration of the Boer as an individual. He said:

"They have been most terribly misled. I don't think that the time is remote when the Boer and Briton will settle peaceably side by side and cordially work together for the good of South Africa."

Referring to Lord Milner's speech at the Guild hall, he said that its effects must be to give an object lesson in good government in South Africa. He added:

"Lord Milner, to whom the empire owes an everlasting debt of gratitude, exactly hit the nail on the head. Once give the Boers to understand that they will be governed justly and wisely, the rest will be easy. Depend upon it, in the end we will win over the Boers to our side."

IRON AND CONCRETE.

New Method of Construction in the Netherlands.

The Amsterdamse Fabriek van Cement Yzer Werken has furnished United States Consul Hill, at the Amsterdam office, with the following description of a new system of construction which is used in the new Postal Savings bank building of that city, now approaching completion, says the Washington Star:

"In the Monier system of building an iron framework, looking much like a birdcage, is entirely enveloped in concrete of Portland cement, which prevents the iron from getting rusty and at the same time renders the concrete elastic. The iron, or, rather steel, acts entirely in tension, the concrete in pressure. This construction is at once strong, fireproof and waterproof and entails no outlay for repairs.

"Patents have been taken out in various countries, and in Germany a joint stock company, with a capital of 2,500,000 marks, has been formed. An establishment of concrete iron works has been opened in the province of Zeeland and another in Amsterdam. This company has made a number of experiments, resulting in the application of the construction, described as an economic substitute in many cases for T constructions, generally used heretofore.

"Floors without beams measuring 7½ by 7½ meters (24½ feet) and 8½ by 8½ meters (27½ feet) have been constructed for the Postal Savings bank at Amsterdam, and a floor of 300 square meters (3,225 square feet) constructed as a whole with beams is about to be made for a government building at The Hague. Complicated formulae being required in the calculation of concrete iron floors and beams, the directors of the company have had some graphic tables drawn up which enable them to find at a glance the necessary data for the work. These calculations and tables are kept strictly secret.

"This system is growing rapidly in favor in all European countries in the construction of government buildings and in manufactures. It is believed that in a comparatively few years it will have replaced brick, wood, iron, etc., in the building trade. The method is specially adapted for bridges. The Monier system will undoubtedly meet with considerable success in the new world, as many tanks, etc., now made of concrete only could be conveniently constructed of concrete iron."

LOOK LIKE WAVES OF FIRE.

Phosphorescent Condition of Pacific Ocean Attracts the People.

The remarkable phosphorescent condition of the ocean along the coast of southern California continues to attract great attention, says a special dispatch from Los Angeles to the St. Louis Globe-Democrat. Special trains to Santa Monica, Redondo, Long Beach and Terminal Island carry thousands of people nightly to see the phenomenon.

The other night the sea was higher than any evening before since the display began, and the light was consequently greater. As waves from 10 to 15 feet high broke along the beach they presented the appearance of walls of green tinted fire, and at times the whole surface for miles seemed ablaze, making a display that was almost startling.

A New Type of Hunting Launch.

At the Jacob yard on City Island, N. Y., a very able type of hunting launch, designed by C. D. Mower, is being built for Mr. Jacob's use about the yard and sound, says the New York Times. A cabin eight feet long is set at the fore-head part of the boat, which will allow sitting head room of 4 feet 6 inches. A toilet room is situated in the forehead end of the cabin, and berths are situated on each side, at the end of which are two hanging lockers. Aft of the cabin is a 14 foot cockpit, with seats running full length on both sides. The engine, probably of the gasoline explosive type, will be set well forward near the center of the boat. The overhanging bow will protect the boat from pitching in rough seas, thereby making her an able dry hunting boat for all kinds of weather.

Advice For a Coronation Oath.

King Edward is said to be puzzled in mind regarding which form of oath would be best to use at his coronation. Why doesn't he play golf, says the Boston Herald, on a hazardous course a while and try all of them?

MAY END THE STRIKE

UNION LEADERS AND STEEL MAGNATES HAVE A MEETING IN NEW YORK.

TO RESUME NEGOTIATIONS

Basis for Such a Conference Arrived at—Utmost Secrecy Maintained Concerning the Matter at Present—Believed That Before the End of the Week the Mills Will Be Running Again.

Pittsburg, July 29.—The strike of the steel and tin workers of the Amalgamated association against the United States Steel corporation will probably be settled this week. A conference held in New York between the officials of the United States Steel corporation and President T. J. Shaffer and Secretary John Williams of the workers' organization, has resulted in paving the way for a renewal of negotiations between the conflicting interests.

It is said that a basis for such a conference has been arrived at. This basis is still locked up in the minds of the officials of the two organizations and will not be divulged until after this week. If the basis shall prove satisfactory to the general executive committee of the Amalgamated association, the conference between the association and the manufacturers will proceed at once. If, on the other hand, the basis is not what the Amalgamated association will permit to be considered as negotiable grounds, the strike will be continued with the same vigor as at present, and with indefinite time for its ending.

President Shaffer and Secretary Williams of the Amalgamated association returned from New York during the day. They had spent many hours in conference with the leading officials of the steel trust, had evaded all New York reporters and came home with hopes for an early ending of the present contest. In Pittsburg little was known of the conference, but the greatest interest in the outcome was shown among the manufacturers.

Secretary Williams was found at his home. He promptly admitted that he had been with President Shaffer in New York and seen J. P. Morgan, but as to what had taken place there he said with firmness that he

Was Pledged to Secrecy

and could not talk. It is learned here that a meeting of the executive board has been called for Tuesday.

Additional information regarding the New York meeting of the industrial leaders was afterward gathered from reliable sources. It was stated that the meeting between the Pittsburg men and Mr. Morgan lasted about five hours. During the conference President C. M. Schwab and Judge E. H. Gary were present most of the time. Another conferee was Mr. Dawkins, one of Mr. Morgan's partners. The Amalgamated officials talked almost entirely to Mr. Morgan and President Schwab. They went over the grounds on which the strike began and discussed a settlement basis. After getting the views of the steel trust officials and giving theirs in return, Mr. Shaffer and Mr. Williams left the office and spent their time away from public places, avoiding hotels and taking their meals in restaurants.

It is believed that before the end of the week the mills will all be ready to run again, providing repairs shall be completed that have been undertaken since the strike began. Should the whole project fall of coming to an amicable end, however, the fight promises to be more bitter than ever. For this reason, those back of the present negotiations are extremely anxious to have everything kept as quiet as possible and that nothing should be made public regarding the basis for a conference, until it had been accepted by both sides.

For all rush to see the pagant
When the circus comes to town.

Fathers, mothers, aunts and uncles
Get the little ones in tow,
All declaring that the children
Must go down and see the show.
Even to babies they are pointing
Out the beasts of great renown,
For the old circus they're working
When the circus comes to town.

But 'tis always plainly noticed
That the grown-ups so time waste;
Soon the savage beasts they're leaving
And right to the main tent haste,
For they want to see the riders,
Every athlete and each clown,
And their money's worth they're getting
When the circus comes to town.

Some are staying for the concert
That has been so highly praised;
Some are taking in the side shows,
There to be again amazed,
And the lemonade and peanuts
Are by galleons going down,
For the populace gets reckless
When the circus comes to town.

ADMIRE THE BOERS.

Baden-Powell Says They Have Been Deceived by Their Leaders.

Southampton, July 29.—In an interview General Baden-Powell said he did not care to prophesy the end of the war. It was easy in such a country for small roving bands to elude defeat or capture. Nevertheless, he was inclined to think that unless there is an earlier dramatic ending the Boer resistance will have been completely crushed in three or four months from now.

General Baden-Powell spoke with respect and admiration of the Boer as an individual. He said:

"They have been most terribly misled. I don't think that the time is remote when the Boer and Briton will settle peaceably side by side and cordially work together for the good of South Africa."

Referring to Lord Milner's speech at the Guild hall, he said that its effects must be to give an object lesson in good government in South Africa. He added:

"Lord Milner, to whom the empire owes an everlasting debt of gratitude, exactly hit the nail on the head. Once give the Boers to understand that they will be governed justly and wisely, the rest will be easy. Depend upon it, in the end we will win over the Boers to our side."

IRON AND CONCRETE.

New Method of Construction in the Netherlands.

The Amsterdamse Fabriek van Cement Yzer Werken has furnished United States Consul Hill, at the Amsterdam office, with the following description of a new system of construction which is used in the new Postal Savings bank building of that city, now approaching completion, says the Washington Star:

"In the Monier system of building an iron framework, looking much like a birdcage, is entirely enveloped in concrete of Portland cement, which prevents the iron from getting rusty and at the same time renders the concrete elastic. The iron, or rather steel, acts entirely in tension, the concrete in pressure. This construction is at once strong, fireproof and waterproof and entails no outlay for repairs.

"Patents have been taken out in various countries, and in Germany a joint stock company, with a capital of 2,500,000 marks, has been formed. An establishment of concrete iron works has been opened in the province of Zeeland and another in Amsterdam. This company has made a number of experiments, resulting in the application of the construction, described as an economic substitute in many cases for T constructions, generally used heretofore.

"Floors without beams measuring 7½ by 7½ meters (24.6 feet) and 8½ by 8½ meters (27.9 feet) have been constructed for the Postal Savings bank at Amsterdam, and a floor of 300 square meters 3.228 square feet) constructed as a whole with beams is about to be made for a government building at The Hague. Complicated formulae being required in the calculation of concrete iron floors and beams, the directors of the company have had some graphic tables drawn up which enable them to find at a glance the necessary data for the work. These calculations and tables are kept strictly secret.

"This system is growing rapidly in favor in all European countries in the construction of government buildings and in manufacturing. It is believed that in a comparatively few years it will have replaced brick, wood, iron, etc., in the building trade. The method is specially adapted for bridges. The Monier system will undoubtedly meet with considerable success in the new world, as many tanks, etc., now made of concrete only could be conveniently constructed of concrete iron."

LOOK LIKE WAVES OF FIRE.

Phosphorescent Condition of Pacific Ocean Attracts the People.

The remarkable phosphorescent condition of the ocean along the coast of southern California continues to attract great attention, says a special dispatch from Los Angeles to the St. Louis Globe-Democrat. Special trains to Santa Monica, Redondo, Long Beach and Terminal Island carry thousands of people nightly to see the phenomenon.

The other night the sea was higher than any evening before since the display began, and the light was consequently greater. As waves from 10 to 15 feet high broke along the beach they presented the appearance of walls of green tinted fire, and at times the whole surface for miles seemed ablaze, making a display that was almost startling.

A New Type of Hunting Launch.

At the Jacob yard on City Island, N. Y., a very able type of hunting launch, designed by C. D. Mower, is being built for Mr. Jacob's use about the yard and sound, says the New York Times. A cabin eight feet long is set at the fore-head part of the boat, which will allow sitting head room of 4 feet 6 inches. A toilet room is situated in the fore-head end of the cabin, and berths are situated on each side, at the end of which are two hanging lockers. Aft of the cabin is a 14 foot cockpit, with seats running full length on both sides. The engine, probably of the gasoline explosive type, will be set well forward near the center of the boat. The overhanging bow will protect the boat from pitching in rough seas, thereby making her an able dry hunting boat for all kinds of weather.

Advice For a Coronation Oath.

King Edward is said to be puzzled in mind regarding which form of oath would be best to use at his coronation. Why doesn't he play golf, says the Boston Herald, on a hazy day and while and try all of them?

J. R. SMITH, FIRE INSURANCE, and Real Estate Office.

We represent 15 of the best "Fire" Companies, and use special forms to fully protect our policy holders, at lowest rates. Choice bargains in Real Estate, Houses to Rent, Loans Negotiated.

Call day or evening, Room 2, Sleeper block, Brainerd, Minn.

A MODEL HUSBAND

a man must be that can wear the shirts and collars that we see daily upon suffering mankind. Why torture yourself with a saw edge collar when we will launder one for three cents, or why wear a shirt front that looks like a mackerel sky in an oil painting, when we will launder one in faultless style for thirteen cents.

BRAINERD STEAM LAUNDRY.
